The University of Tennessee Space Institute (UTSI) recognizes continuing education as an important and basic responsibility and considers it to be an integral part of the academic programs at the institute. UTSI will partner with the University of Tennessee Center for Industrial Services (CIS) to provide the following OSHA classes to support industry needs. CIS houses the U.S. Department of Labor OSHA Outreach Training Program.

10-Hour General Industry Course
(1.5 day course)
This course provides instruction on a variety of general industry safety and health standards. It’s particularly useful for those who are just entering the safety field and would like a better understanding of what is required and where to start. Course subject matter includes an introduction to OSHA; OSHAct/General Duty Clause; inspections, citations and penalties; walking and working surfaces; means of egress and fire protection; and electrical.

Note: Students who complete this will receive an OSHA 10-Hour General Industry card.

COST: $275

OSHA 511
This course covers OSHA Standards, policies, and procedures in general industry. Topics include scope and application of the OSHA general industry standards, general industry principles and special emphasis on those areas in general industry which are most hazardous. Completion of this course serves as the prerequisite to OSHA 501: Trainer Course in OSHA Standards for General Industry that begins the process for certifying an individual to teach the yearly OSHA 10- and 30-hour general industry courses.

COST: $725 (price includes a copy of the OSHA standards, 29 CFR Part 1910)
