CALENDAR
SUMMER SEMESTER 2011

Registration .................................................................................................................. March 2, 2011 – June 1, 2011
Submit Admission to Candidacy Forms Summer 2011 Graduation .................. April 29, 2011
Submit Graduation Application ................................................................................ April 29, 2011
Late Registration and late fees begin ................................................................. June 2 – June 10, 2011
Memorial Day (Holiday) ......................................................................................... May 30, 2011
Classes begin .............................................................................................................. June 2, 2011
Last Day to Final Register, Add, Change Grading Options or Drop without 
a “W” .................................................................................................................. June 10, 2011
Pay Graduation Fee .................................................................................................... June 24, 2011
Independence Day Holiday ....................................................................................... July 4, 2011
Last day to schedule final exam (thesis) ............................................................. July 8, 2011
Last day to schedule final exam (non-thesis/capstone students) ......................... July 8, 2011
Last day to schedule final exam (dissertation) ..................................................... July 15, 2011
Last day to defend thesis ....................................................................................... July 22, 2011
Last day to take final exam (non-thesis/capstone students) ................................. July 22, 2011
Last day to defend dissertation ............................................................................. July 22, 2011
Last Day to Drop with a “W” .................................................................................... July 11, 2011
Final paper or electronic thesis/dissertation must be approved and accepted in Knoxville 
By (5:00 P.M. EST) ............................................................................................. August 5, 2011
Submit Pass/Fail form to UTSI Registrar’s Office ............................................. August 5, 2011
Deadline for submission of Admission to Candidacy for students 
graduating Fall 2011 ............................................................................................. August 5, 2011
Deadline for removing “INCOMPLETE” grades .................................................. August 9, 2011
Classes End .............................................................................................................. August 9, 2011
Withdraw from all classes .................................................................................... August 9, 2011
Exam Period (Exams are given during the regularly scheduled class meeting times.)
Second thesis/dissertation deadline (Student will receive diploma December 2011 
but do not have to register for Fall 2011) (Defense completed by August 9) .... August 16, 2011
No Graduate Hooding or Summer Commencement – Graduation Date .......... August 17, 2011

FALL SEMESTER 2011

Priority Registration for Fall Semester 2011 on CPO ........................................ March 21, 2011
Late Registration ...................................................................................................... TBD
Classes begin ............................................................................................................ August 17, 2011
Labor Day (Holiday) .............................................................................................. September 5, 2011
Fall Break .............................................................................................................. September 29-30, 2011
Thanksgiving Break .............................................................................................. November 24-25, 2011
Classes End ............................................................................................................ November 29, 2011
Study Period .......................................................................................................... November 30, 2011
Exam Period .......................................................................................................... December 1, 2, 5-8, 2011
Doctoral Hooding Ceremony (UTK) .................................................................. December 8, 2011
Commencement (UTK) ........................................................................................ December 9, 2011

Dates may be revised without notice. Please refer to the following sites for updates:

SUMMER SEMESTER 2011
FINAL STUDY DAY AND EXAM SCHEDULE

LAST DAY OF CLASSES ........................................................................................................ August 9, 2011

FINAL EXAMS FOR SUMMER ARE GIVEN DURING THE REGULARLY SCHEDULED CLASS MEETING TIMES LISTED BELOW:

Monday, Thursday and Tuesday, Friday

7:45 – 9:45
10:00 – 12:00
1:00 – 3:00
3:15 – 5:15

**** ATTENTION ****

ALL STUDENTS TAKING RECORDED COURSES
CONTACT INSTRUCTOR FOR DATE AND TIME OF FINAL EXAM
REGISTRATION ANNOUNCEMENT
SUMMER SEMESTER 2011

REGISTRATION PROCEDURE

ADVISING

Graduate students should contact their departmental faculty to arrange an advising appointment. For students not accepted into specific programs, the Assistant to the Dean of Graduate Studies or his/her designee may act as advisor. The web registration system will ask if you have discussed your program with your advisor. Answer ‘yes’ if you have; otherwise, you cannot continue with the registration process. Graduate School Web Page: http://gradstudies.utk.edu/.

REGISTRATION

Students will register at http://my.utk.edu. You will need to log in using your NetID and your NetID password. The following instructions were provided by UTK:

*Log in to MyUTK. You can find a link by looking under “M” on the A-Z index (http://www.utk.edu/alpha/) or by typing myutk.utk.edu directly into your browser. You will need to log in by typing “utk/your NetID” in the “username” field, replacing “your NetID” with your actual NetID, and then your NetID password in the “password” field.

*Before you attempt to register, clear and pay any financial holds (parking tickets, library fines, fees, etc.) at MyUTK.

*Look under the “For Your Review” heading on the MyUTK portal page (located in the upper right-hand corner) for notification of any holds you may have.

*Once you are logged into “My UTK,” scroll down to “UTK Student Links.” Click on “Search for Classes” to look up sections and then register.

*Print a copy of your schedule when you are finished registering.

If you have any questions, call the Office of the University Registrar at 865-974-2101 or contact Charlene Hane in Student Services room D-100, phone 931-393-7228, email chane@utsi.edu.

Financial Calendar for Summer Term 2011

Statement information available on MyUTK.UTK May 9, 2011
Priority Registration Payment/Confirmation Deadline June 1, 2011 at 4:30 p.m. (EST)
Late Registration/Late Fees Begin June 2, 2011
Late Registration Payment/Confirmation Deadline June 10, 2011 at 4:30 p.m. (EST)

NOTE: PAYMENT AND THE CONFIRMATION OF ATTENDANCE FORM MUST BE RECEIVED BY THESE DEADLINES WHETHER OR NOT YOU HAVE RECEIVED A VolxPress e-STATEMENT.
** CREDIT CARD PAYMENTS **

NOTE: If you pay your fees using MyUTK with a credit/debit card (Discover, VISA, Mastercard) you will be assessed a 2.5% service fee. To avoid this service fee you will need to make payment to the UTSI Business Office.

** SPECIAL BILLING – THIRD PARTY BILLING: **

The Business Office will generate a bill after the student has provided a letter of authorization from the third party sponsor. Authorization must include the sponsor’s name and address as well as the maximum amount which will be paid for each specific term. The authorization can be mailed to UTSI Business Office, MS#12, 411 B.H. Goethert Parkway, Tullahoma, TN 37388-9700 or email it to jboyles@utsi.edu. Since students are responsible for all University fees and charges, use of the third-party address as the student’s billing address is strongly discouraged.

STUDENTS ARE ULTIMATELY RESPONSIBLE FOR ALL CHARGES. THEY MUST COMPLETE A CONFIRMATION OF ATTENDANCE FORM AND MAKE CERTAIN MINIMUM PAYMENT AMOUNTS CREDITED OR AUTHORIZED ON OR BEFORE THE PAYMENT DUE DATE IN ORDER TO AVOID LATE PAYMENT FEE ASSESSMENT AND SCHEDULE CANCELLATION.

If you have any questions concerning third-party billing please call Jennifer Boyles at 931-393-7297 or 888-822-8874 ext 37297or by email jboyles@utsi.edu

** TOLL-FREE NUMBERS **

For a specific office: 1-888-822-UTSI (8874) and the extension number.
For general information: 1-888-822-UTSI (8874)
Admissions Office: 1-888-822-UTSI (8874)-37213
Business Office: 1-888-822-UTSI (8874)-37204
Student Services 1-888-822-UTSI (8874)-37228

** APPLICATION FOR ADMISSION **

No student will be allowed to register unless a completed Application for Admission to the Graduate School of the University of Tennessee, Knoxville (UTK) is on file in the Registrar's Office. An Application for Admission to the UTK Graduate School must be accompanied by a $35.00 non-refundable application fee, payable to The University of Tennessee Space Institute. Applicants are required to provide one official transcript of all undergraduate and graduate records. Students may apply on-line at http://admissions.utk.edu/graduate/apply.shtml [click on APPLY ONLINE and Follow Directions]. Send Applications for Admission, transcripts, GRE scores (if required); and if international application, TOEFL scores to the Admissions Office, A-200, Mail Stop 1, UTSI, Tullahoma, TN 37388-9700.

** PAYMENT OF FEES **

Late fees will begin on June 2, 2011. The only credit/debit cards The University of Tennessee Space Institute accepts are Visa, MasterCard and Discover.

** FEES OF DISTANCE STUDENTS **

Distance students should contact their departmental coordinator to determine the amount of the access fee.
TUITION AND/OR MAINTENANCE FEES*

Full Fees For In-State Students (per semester)

Maintenance Fee ................................................................. $3,720.00*
Programs and Services Fee ............................................ 75.00
Total ................................................................. $3,795.00

Full Fees For Out-Of-State Students (per semester)*

Maintenance Fee ................................................................. $3,720.00*
Tuition ................................................................. $7,519.00*
Programs and Services Fee ............................................ 75.00
Total ................................................................. $11,314.00

* BEGINNING FALL 2010 an additional $45.00 per credit hour with no cap will be charged to ALL ENGINEERING COURSES.

*All fees are subject to changes approved by the Board of Trustees prior to the beginning of the term.

TUITION FOR PART-TIME STUDENTS

Part time students may elect to pay fees computed by the semester hour credit as follows:

IN-STATE $414.00 per semester hour
3 hours $1,242.00

OUT-OF-STATE $1,250.00 per semester hour
3 hours $3,750.00

ENGINEERING FEE

On July 1, 2007, the Computer Science Department merged with the Engineering Department. Beginning Fall 2008, a special per credit hour fee will be assessed on engineering and computer science courses offered through the College of Engineering and the College of Agricultural Sciences and Natural Resources. The additional funds will be used to acquire state-of-the-art equipment, expand first-year programs for Engineering students, and provide faculty with professional development opportunities to bring the latest knowledge into the classroom. The Colleges will retain the funds generated from this fee for their use.

PROGRAMS AND SERVICES FEE

All students enrolled in eight semester hours or more for Summer Semester are assessed an activity fee of $75.00 per semester. Part-time students taking fewer than eight hours will be assessed at the rate of $10.00 per semester hour. The Programs and Services Fee is non-
refundable. Research assistants and fellowship/scholarship students who may have a waiver of fees (tuition), must pay appropriate University Programs and Services Fee.

Part-time students enrolled for recorded classes at off campus centers and students residing out of state are not required to pay the Programs and Services Fee.

RETURNED CHECK POLICY

All checks are deposited the day they are received. A $30.00 service charge will be assessed when checks fail to clear the bank on which drawn. In addition, if the returned check is in payment of initial fees and charges, the late payment fee in effect at the time the check is redeemed will be added to the returned check service fee. Returned checks will not be re-deposited. Cash or a cashier's check is required for payment of a returned check, late fee, and service charges. Failure to clear returned checks will result in the forfeiture of all University services including the receipt of grades, transcripts, and schedules of classes.

DEFERRED PAYMENT PLAN

Although fees, rent and other University expenses are due and payable at the beginning of each term, a full-time student in good financial standing with a definite anticipated source of funds may request the deferment of up to 50% of the total charges at registration. The deferred payment must be paid by the 45th day of the semester. All financial aid monies must be applied to fees before a deferment will be considered. A deferred payment service fee of $20.00 is assessed when any portion of tuition, fees, and other charges are deferred with the approval of the Business Office. An additional $35.00 late payment charge will be assessed if the second installment is not paid on or before the due date. For more details, contact the Business Office.

LATE PAYMENT FEES

A Late Payment Fee of $35.00 will be added to each VOLXpress account if the minimum payment amount which is printed on the statement is not received by the Bursar’s Office on or before the published due date. This does not include beginning of term registration statements which will result in cancellation of schedules if the minimum payment is not met. Late payment fees are exclusive of all other charges and are due when assessed whether or not the student receives a VOLXpress statement. Accounts are subject to a late fee of $45.00 if there is an account balance at mid-semester. The fee is assessed in addition to the unpaid fees and charges and the account balance must be paid in order to access registration services, receive a transcript, grades, or a diploma.

TUITION/FEES POLICY FOR DROPPED COURSES OR WITHDRAWAL

THE PERCENTAGE TUITION REFUNDS SPECIFIED ON THE FOLLOWING PAGE ARE APPLICABLE WHEN A STUDENT DROPS ONE OR MORE COURSES (INCLUDING TOTAL WITHDRAWAL). Students who drop courses and continue with a reduced course load are eligible for a refund only if the total charges at the semester hour rate for the courses continued plus the percentage assessed at the semester hour rate for the courses dropped results in an amount less than that paid. The Programs and Service Fee is non-refundable.

******************************************************************************

A COURSE IS NOT OFFICIALLY DROPPED UNTIL A CHANGE OF REGISTRATION FORM HAS BEEN PROCESSED BY THE REGISTRAR’S OFFICE. CANCELED COURSES OR FAILURE TO ATTEND CLASS DOES NOT AUTOMATICALLY WITHDRAW OR DROP A STUDENT FROM THE
UNIVERSITY OR CLASS — A CHANGE OF REGISTRATION FORM MUST BE COMPLETED.

The following percentage assessments are applicable for courses dropped (if fees are assessed at the semester hour rate):

<table>
<thead>
<tr>
<th>DROP DATE</th>
<th>CHARGE</th>
<th>REFUND</th>
</tr>
</thead>
<tbody>
<tr>
<td>June 2 - 6</td>
<td>NO CHARGE</td>
<td>100%</td>
</tr>
<tr>
<td>June 7 - 12</td>
<td>20% CHARGE</td>
<td>80%</td>
</tr>
<tr>
<td>June 13 - 17</td>
<td>40% CHARGE</td>
<td>60%</td>
</tr>
<tr>
<td>June 18 – 22</td>
<td>60% CHARGE</td>
<td>40%</td>
</tr>
<tr>
<td>June 23 - End of Term</td>
<td>100% CHARGE</td>
<td>NO REFUND</td>
</tr>
</tbody>
</table>

TUITION/FEE REFUND POLICY FOR WITHDRAWALS

Withdrawal from school for the term after registration has been processed, even though classes have not been attended or fees paid, must be by official notification to the Registrar's office. The effective date of withdrawal is the date the Registrar's office is notified by completion of the Change of Registration request form. FAILURE TO ATTEND CLASS DOES NOT AUTOMATICALLY CANCEL ENROLLMENT. The appropriate percentage of fees will be charged unless the Registrar's Office is notified by the close of the last day designated for registration and before the first official day of classes for the semester or term. WITHDRAWAL DOES NOT CANCEL FEES AND CHARGES ALREADY INCURRED. THE DROP/ADD PROCEDURE CAN NOT BE USED TO WITHDRAW FROM SCHOOL FOR THE SEMESTER OR TERM. When a course is canceled by UTSI administration, the students who have registered for the course will be notified by either the instructor and/or Charlene Hane, Student Services. Any questions concerning registration, please contact Charlene Hane, UTSI, Office D-100, 931-393-7228.

The University of Tennessee Space Institute, in accordance with federal regulations, follows the policy and procedures below for calculating refunds and repayments for financial aid.

REFUNDS

Refunds are defined as the portion of maintenance and/or tuition and University housing charges due as rebate when a student withdraws or is expelled from the University. The amount of a refund is determined by the Drop Date Charge fee table.

REPAYMENTS

Repayments are defined as that portion of aid, received by a student after the University direct charges have been paid by that aid, which must be repaid by a student when a student withdraws or is expelled. The amount of the repayment is determined by the Drop Date Charge fee table.

Refunds and repayments to the Title IV programs are determined according to the formula published in the current Federal Student Financial Aid Handbook. The Business and Admissions Offices are responsible for determining the amount of the refund and/or repayment and distributing the correct amount back to the financial aid programs according to the Refund/Repayment Allocation Policy.
WITHDRAWAL (TOTAL) FROM THE UNIVERSITY

If, after registering for classes and either returning your fee payment or your Confirmation of Attendance form to the Bursar’s Office, you decide not to enroll for this term, you must immediately notify Charlene Hane, Student Services, at UTSI. If you withdraw officially on or before a Change of Registration deadline, but after the no “W” deadline for a particular session, the grade of “W” will be issued.

GRADES

Students may obtain their grades through the web at MyUTK or contact Charlene Hane, Student Services, Office D-100, (931) 393-7228.

GRADUATE STUDENTS CHANGE OF REGISTRATION AFTER THE DEADLINE

To change registration in any way after the deadline, a graduate student must present a request, signed by the instructor(s) and adviser as evidence of their knowledge of the request to Charlene Hane, Student Services at UTSI. Graduate students must verify that ALL changes have been approved by their academic adviser. If the Office of Graduate Student Services approves the change of registration, the change will be noted on the student’s permanent record. THE DROP DEADLINE FOR GRADES AND THE DROP DEADLINE FOR FEE REFUNDS ARE NOT THE SAME.

FULL-TIME STUDENTS

Students enrolled in at least 9 semester hours during the Fall/Spring semesters or 6 hours in the Summer Term are considered full-time students. Research Assistants must be full-time students and also enroll in one of the MABE 595 seminars or a PHYS 599 seminar each term, unless a waiver is granted by the Associate Executive Director.

REMOVAL OF INCOMPLETE GRADES

All Incomplete Grades (I) must be removed prior to graduation. The instructor, in consultation with the student, decides the terms for the removal of the I, including the time limit for removal. If the I is not removed within one calendar year, the grade will be changed to an F. The course will not be counted in the cumulative grade point average until a final grade is assigned. No student may graduate with an I on the record. Students planning to graduate Summer Semester 2011 must remove all INCOMPLETE GRADES by August 9, 2011. Contact Charlene Hane, Student Services, to remove an Incomplete Grade.

REPEATING A COURSE

No graduate student may repeat a course for the purpose of raising a grade already received, with the exception of a NC course. A graduate student cannot do additional work nor repeat an examination to raise a final grade.

ADMISSION TO CANDIDACY

MASTER OF SCIENCE DEGREE:

Each M.S. student, including IE Capstone Project students, is responsible for submitting a completed and signed Admission to Candidacy Application at least one semester prior to receiving the degree.
Candidacy committee changes or course changes must be submitted to the committee chairman using a Revision form. If changing from a thesis option to a non-thesis option or vice versa, a new Admission to Candidacy Application must be submitted. All forms must be processed through Student Services.

**DOCTORAL DEGREE:**

A Doctoral Committee should be formed during the student's first year of doctoral study. Any changes to the doctoral committee (deletions or additions) must be submitted to the Committee Chairman using a Revision form for approval. Each doctoral student is responsible for submitting a completed Admission to Candidacy form signed by the doctoral committee at least one semester prior to receiving the degree. All forms must be processed through Student Services.

**CONTINUOUS REGISTRATION OF DOCTORAL STUDENTS**

All doctoral students must be registered for doctoral dissertation research course 600 (minimum of 3 hrs.) on a continuous basis starting when the doctoral research proposal is approved, admission to candidacy is accepted, or registration for course 600 is begun, whichever comes first, including ALL Summer terms and the semester in which the dissertation is approved and accepted by The Graduate School. A leave of absence may be requested for extenuating circumstances. The procedure can be found in the UTK Graduate catalog.

**FINAL EXAMINATION FOR NON-THESIS, CAPSTONE PROJECT STUDENTS, THESIS AND DISSERTATION STUDENTS**

A candidate presenting a thesis or dissertation must pass a final oral examination on all work offered for the degree. The examination is scheduled through Student Services. Failure to notify Student Services of the examination date will put the student at risk for graduating that semester. Final examinations not properly scheduled MUST be repeated. The final draft of the thesis must be distributed to the committee members at least two weeks prior to the date of the final examination. In case of a grade of "Fail", the candidate may not apply for re-examination until the following semester. The result of the second examination is final.

**UT POLICY ON INSURANCE FOR INTERNATIONAL STUDENTS**

All foreign national students registered with the University of Tennessee, Knoxville, are required to have comprehensive medical insurance. The policy for the 2010-2011 academic year is provided by Aetna. The premium must be paid before registration. Contact the Human Resources Office (C-104 ext. 37267) for further information.

**GENERAL SEMINAR**

A number of seminars of interest to all UTSI students and general public will be offered throughout the semester.

**FINAL EXAM DATES FOR SUMMER SEMESTER 2011**

Final exams are given during the regularly scheduled class meeting times.
HONOR STATEMENT

The following Honor Statement is signed by all students applying to The Graduate School:

"An essential feature of The University of Tennessee, Knoxville is a commitment to maintaining an atmosphere of intellectual integrity and academic honesty. As a student of the University, I pledge that I will neither knowingly give nor receive any inappropriate assistance in academic work, thus affirming my own personal commitment to honor and integrity."

For official information on all UTK Graduate School policies, refer to the current UTK Graduate Catalog available from Charlene Hane, Student Services, D-100.

The University of Tennessee Space Institute reserves the right to cancel any class with an insufficient number of students, or for other reasons.
THE UNIVERSITY OF TENNESSEE POLICY ON A DRUG-FREE CAMPUS AND WORKPLACE

In support of the Drug-Free Workplace Act of 1998 (Public Law 100-690) and the Drug-Free Schools and communities Act of 1989, the University of Tennessee is notifying all students, faculty, and staff of the following university policy approved by the UT Board of Trustees on 21 June 1990.

It is the policy of the University of Tennessee to maintain a safe and healthful environment for its students and employees. Therefore, university policy prohibits the unlawful use, manufacture, possession, distribution, or dispensing of drugs ("controlled substances" as defined in the Controlled Substances Act, 21 U.S.C. 812) and alcohol on university property or during university activities.

Violation of this policy is grounds for disciplinary action--up to and including immediate discharge for an employee and permanent dismissal of a student. Federal and state laws provide additional penalties for such unlawful activities, including fines and imprisonment (21 U.S.C. 841 et seq.; T.C.A. 39-6-401 et seq.). Local ordinances also provide various penalties for drug- and alcohol-related offenses. The university is bound to take all appropriate actions against violators, which may include referral for legal prosecution or requiring the individual to participate satisfactorily in an approved drug use or alcohol abuse assistance or rehabilitation program.
AEROSPACE ENGINEERING

*AE  422  Aerodynamics (3)  CANCELLED
SEC.  001  CRN 32762  (Video Recorded)
TEXT:  John D. Anderson, Jr.;  *Fundamentals of Aerodynamics*; 2nd or later Edition; McGraw Hill
ISBN 0-07-001679-8
TIME:  Tuesday & Thursday  1:00 – 3:30  E-111
PROFESSOR:  Dr. Peter Solies

Theory and design of aerodynamic bodies for desired characteristics. Potential flow theory, viscous
effects, and compressibility effects. Subsonic, transonic, and supersonic airfoils.
*(RE) Prerequisite(s):  351 and 370.*

AE  500  Master’s Thesis (3, 6, 9)
SEC.  002  CRN 32766  Antar
003  CRN 32767  Corda
004  CRN 32768  Flandro
005  CRN 32769  Majdalani
010  CRN 32774  Moeller
011  CRN 32775  Schulz
013  CRN 32777  Solies
014  CRN 32779  Steinhoff
015  CRN 32780  Vakili

AE  502  Registration for Use of Facilities (1-15)
SEC.  001  CRN 32783  Moeller

*AE  513  Experimental Methods in Fluid Mechanics (3)  CANCELLED
SEC.  001  CRN 32784
TEXT:  J.R. Goldstein;  *Fluid Mechanics Measurements*; 2nd Edition; Taylor and Francis
ISBN 1-56032-306-X
TIME:  Monday & Thursday  10:00 – 12:00  E-210
PROFESSOR:  Dr. Ahmad Vakili

Experimental techniques with laboratory experiments; representative experiments: hot wire anemometry
and turbulence measurements, flow visualization, wind tunnel tests, water table experiments, supersonic
flow experiments, boundary layer measurements, laser-optical measurements.
*(DE) Prerequisite(s):  541.*

AE  522  Aerodynamics of Compressible Fluids (3)
SEC.  001  CRN 33196
One-dimensional internal and external flow; waves; small perturbation theory; slender body theory; similarity rules; method of characteristics.

(DE) Prerequisite(s): 521.

AE 532 Introduction to Turbulence (3)
SEC. 001 CRN 32785 (Video Recorded)

TEXT: Tennekes Lumley; A First Course in Turbulence; Latest Edition; MIT Press
ISBN 0-262-200198
TIME: Tuesday & Friday 9:15 – 11:00 E-111
PROFESSOR: Dr. Basil Antar

Macroscopic effects, analogies, statistical treatment, correlation functions, energy spectra, diffusion; application of turbulent jets and pipe flow.

(DE) Prerequisite(s): 511 and 512.

AE 590 Selected Engineering Problems (3)
SEC. 001 CRN 32786 Antar
002 CRN 32787 Corda
003 CRN 32788 Flandro
004 CRN 33197 Majdalani
005 CRN 33198 Moeller
006 CRN 33199 Schulz
007 CRN 33200 Solies
008 CRN 33201 Steinhoff
009 CRN 33202 Vakili

Repeatability: May be repeated. Maximum 6 hours.
Comment(s): Enrollment limited to students in problems option.
Registration Permission: Consent of advisor.
### AE 690 Advanced Topics in Aerospace Engineering: Vorticity Confinement (3)
SEC. 001 CRN 32802
TEXT: TBD
TIME: TBD
PROFESSOR: Dr. John Steinhoff

*Repeatability: May be repeated. Maximum 9 hours.
Registration Restriction(s): Minimum student level – graduate.
Registration Permission: Consent of instructor.*

This course will derive the equations of motion of a 6 DOF aerospace vehicle. Numerical integration methods in MATLAB®/SIMULINK® will be used to solve these equations. Physical understanding of the equations of motion and stability derivates will be discussed at length. An aerospace vehicle will be
modeled from simple components up to more complex systems. These 6 DOF simulations will be applied
toward pilot in the loop simulations, fly by wire flight controls, and flight test engineering problems.
Students will walk away with a pilot in the loop simulation that integrates a joystick and is connected to
FlightGear® flight simulator on their personal computer. A joystick is required.

Repeatability: May be repeated. Maximum 15 hours.
Credit Restriction: Maximum of 12 hours may be applied toward degree requirements.
Registration Permission: Consent of instructor.

*AS 510 Special Topics in Aviation Systems: Flight Test Data Processing (3) CANCELLED
SEC. 002 CRN 33338 (Video Recorded)
TEXT: Class Notes
TIME: Monday & Thursday 10:15 – 12:30 E-113
PROFESSOR: John Muratore

This course will introduce the student to the typical data processing techniques and issues unique to a
flight test. The course will discuss the unique nature of flight test data sources (telemetry, recordings,
military and commercial databus formats, audio and video formats) and unique processing algorithms to
deal with these formats. The course will discuss data compression and processing algorithms typically
used in real time as well as postflight data reduction. The course will discuss techniques for reducing
noise in flight test data such as digital filtering and wildpoint elimination, techniques for performing
statistical analysis of flight data such as regression analysis and techniques for analyzing flight test data in
the time and frequency domain (fourier and spectral analysis). The course will discuss the problems
associated with planning for flight test data reduction including problems in managing databases and
building data simulators for flight test data processing operations and validation. Special topics such as
data archiving and flight visualization will also be discussed. The course will make extensive use of
LabVIEW and the students will be expected to program and test algorithms in these languages. Excel
will also be used.

Repeatability: May be repeated. Maximum 15 hours.
Credit Restriction: Maximum of 12 hours may be applied toward degree requirements.
Registration Permission: Consent of instructor.

BIOMEDICAL ENGINEERING

BME 529 Applications of Linear Algebra in Engineering Systems (3)
SEC. 001 CRN 32821
TIME: Pre-Recorded Video Lectures, Exam Periods TBA
PROFESSOR: Dr. L. Montgomery Smith

Fundamental concepts of linear algebra to problems in engineering systems: steady state and dynamic
systems. Geometric and physical interpretations of relevant concepts: least square problems, LU, QR, and
SVD decompositions of system matrix, eigenvalue problems, and similarity transformations in solving difference and differential equations; numerical stability aspects of various algorithms; application of linear algebra concepts in control and optimization studies; introduction to linear programming. Computer projects.

*Cross-listed: (Same as Biomedical Engineering 529; Electrical and Computer Engineering 529; Industrial Engineering 529; Materials Science and Engineering 529; Mechanical Engineering 529.)*

Comment(s): Graduate standing or consent of instructor required.

**TIME:** Monday & Thursday 1:00 – 3:00 E-113

**RE Prerequisite(s):** 241 or 247.

Introduction to the theory of functions of a complex variable, including residue theory and contour integrals.

Theory of functions of complex variable (arithmetic, algebra, and trigonometry); complex differentiation and analytic functions with applications to solutions of Laplace equations; complex integration, residue theory and contour integrals with applications to Fourier and Laplace transforms, Fourier Series, and the summation of infinite series; conformal mapping and applications to solving boundary value problems in physics and engineering including applications to fluid and heat flows and electrostatics.

Phys 593 Independent Study (3)
SEC. 001 CRN 32075
TEXT: TBD
TIME: Monday & Thursday 10:00 – 12:00 B-210
PROFESSOR: Dr. Horace Crater

This course will cover a variety of materials not normally offered in the academic year and will be tailored to individual student needs. This summer we anticipate offering material in modern physics and introductory quantum mechanics. This will aid students who wish to take the core physics courses (521-522) in quantum mechanics. It will be tailored to the individual students’ needs. Engineering students, including students in material science, are encouraged as well as students who wish to enter the physics program. Independently this course will serve those students preparing for the physics preliminary exam.

Repeatability: May be repeated. Maximum 15 hours.

*Phys 594 Special Problems in Physics: Numerical Analysis CANCELLED
This special problems/topics course will focus on theoretical/numerical analysis of experiments with contents spawning basics of statistics, mathematics, physics (e.g. sections of traditional core course books from MathMet, Statistical Mechanics, Numerical Methods, Computational Physics) to include Bayesian approaches, maximum likelihood etc, plus sections form selected text on Singular Value Decomposition, Principal Component Analysis, Partial Least Squares including non-linear Partial Least Squares, Chemoetrics, to name a few.

Especially assigned theoretical or experimental work on problems not covered in other courses.

Repeatability: May be repeated. Maximum 9 hours.
