CALENDAR - 2012 SPRING SEMESTER

Priority Registration........................................................................... October 10, 2011 – January 9, 2012
Admission to Candidacy Forms for Spring 2012 Commencement .......... November 29, 2011
Spring 2011 Graduation Application Deadline ....................................... November 29, 2011
Late Registration and late fees begin ...................................................... January 11, 2012
Classes begin......................................................................................... January 11, 2012
Last Day to Late Register, Add, Change Grading Options or Drop
Without a “W” ..................................................................................... January 20, 2012
Martin Luther King Holiday ................................................................. January 16, 2012
Graduation Fee Payment Deadline (MS $30, PhD $75) ......................... March 2, 2012
Last day to schedule final exam (thesis) ............................................... March 26, 2012
Last day to schedule final exam (non-thesis/capstone students) .......... March 26, 2012
Spring Break (No Classes) ................................................................. March 19 - 23, 2012
Last day to schedule final exam (dissertation) ..................................... March 30, 2012
Purchase cap and gown and order hood ............................................... TBD
Register to attend the Graduate Hooding Ceremony (http://gradschool.utk.edu) ... March 30, 2012
Drop with a “W” ................................................................................. April 3, 2012
Last day to take final exam (thesis/dissertation students) ................. April 9, 2012
Last day to take final exam (non-thesis/capstone students) .............. April 9, 2012
Spring Recess (No Classes) .............................................................. April 6, 2012
Electronic Thesis/Dissertation due in Knoxville (5:00 P.M. EST) ......... April 20, 2012
Submit report of final examination (Pass/Fail) form ......................... April 20, 2012
Deadline for Submission of Admission to Candidacy for students
Graduating Summer 2012 and Graduation Application .................. TBD
Deadline for removing "INCOMPLETE" grades................................. April 27, 2012
Classes End ...................................................................................... April 27, 2012
Total Withdraw from the University Deadline ..................................... April 27, 2012
Study Period .................................................................................... April 30, 2012
Exam Period .................................................................................... May 1, 2, 3, 2012
Graduate Hooding Ceremony (UTK) .................................................. May 10, 2012
COMMENCEMENT (UTK) .............................................................. May 9 - 11, 2012
Second thesis/dissertation deadline (Student will receive diploma August 2012
but will not have to register for Summer 2012) (Defense Completed by April 27th)....May 25, 2012

SUMMER SEMESTER 2012

Priority Registration................................................................. September 19, 2012 – October 5, 2012
Final Registration ........................................................................... TBD
Memorial Day Holiday ................................................................. May 28, 2012
Classes begin.................................................................................. May 28, 2012
July 4th Holiday ............................................................................. July 4, 2012
Classes End .................................................................................. August 7, 2012
Summer Graduation Date on Transcript (No Ceremony) .................... August 15, 2012

REGISTRATION ANNOUNCEMENT
SPRING SEMESTER 2012

REGISTRATION PROCEDURE

ADVISING

Graduate students should contact their departmental faculty to arrange an advising appointment. For students not accepted into specific programs, the Assistant to the Dean of Graduate Studies or his/her designee may act as advisor. The web registration system will ask if you have discussed your program with your advisor. Answer ‘yes’ if you have; otherwise, you cannot continue with the registration process. Graduate School Web Page: http://gradschool.utk.edu/.

REGISTRATION

Students will register at http://myutk.edu. You will need to log in using your NetID and your NetID password. If you do not know your NetID and NetID password, go to http://registrar.utk.edu/registration.shtml.

*Log in to MyUTK. You can find a link by looking under “M” on the A-Z index (http://www.utk.edu/alpha/) or by typing myutk.utk.edu directly into your browser. You will need to log in by typing utk\your NetID in the “username” field and then your NetID password in the “password” field.

*Before you attempt to register, clear and pay any financial holds (parking tickets, library fines, fees, etc.).

*Look under the “For Your Review” heading on the MyUTK portal page (located in the upper right-hand corner) for notification of any holds you may have.

*Once you are logged into “My UTK,” scroll down to “UTK Student Links.” Click on “Search for Classes” to look up sections and then register.

*Print a copy of your schedule when you are finished registering.

If you have any questions, call the Office of the University Registrar at 865-974-2101 or contact Charlene Hane in Student Services room D-100, phone 931-393-7228, email chane@utsi.edu.

FINANCIAL CALENDAR FOR SPRING TERM 2012

Statement information available on MyUTK.UTK November 30, 2011

Priority Registration Payment/Confirmation Deadline January 9, 2012 at 4:30 p.m. (EST)

Late Registration/Late Fees Begin January 11, 2012

Late Registration Payment/Confirmation Deadline January 20, 2012 at 4:30 p.m. (EST)

NOTE: PAYMENT AND THE CONFIRMATION OF ATTENDANCE FORM MUST BE RECEIVED BY THESE DEADLINES WHETHER OR NOT YOU HAVE RECEIVED A VolxPress e-STATEMENT. You may view your account at MyUTK.

CREDIT CARD PAYMENTS

** NOTE: If you pay your fees using MyUTK with a credit/debit card (Discover, VISA, Mastercard) you will be accessed a 2.5% service fee. To avoid this service fee you will need to make payment to the UTSI Budget and Finance Office.

SPECIAL BILLING – THIRD PARTY BILLING:

The Budget and Finance Office will generate a billing after the student has provided a letter of authorization from the third party sponsor. Authorization must include the sponsor’s name and address as well as the maximum amount which will be paid for each specific term. The authorization can be mailed to UTSI Budget and Finance Office, MS#12, 411 B.H. Goethert Parkway, Tullahoma, TN 37388-9700 or email it to jboyles@utsi.edu. Since students are responsible for all University fees and charges, use of the third-party address as the student’s billing address is strongly discouraged.

STUDENTS ARE ULTIMATELY RESPONSIBLE FOR ALL CHARGES. THEY MUST COMPLETE A CONFIRMATION OF ATTENDANCE FORM AND MAKE CERTAIN MINIMUM PAYMENT AMOUNTS CREDITED OR AUTHORIZED ON OR BEFORE THE PAYMENT DUE DATE IN ORDER TO AVOID LATE PAYMENT FEE ASSESSMENT AND SCHEDULE CANCELLATION.

If you have any questions concerning third-party billing please call Jennifer Boyles at 931-393-7297 or 888-822-8874 ext 37297 or by email jboyles@utsi.edu

TOLL-FREE NUMBERS

For a specific office: 1-888-822-UTSI (8874) and the extension number.
For general information: 1-888-822-UTSI (8874)
Admissions Office: 1-888-822-UTSI (8874)-37213
Budget and Finance Office: 1-888-822-UTSI (8874)-37297
Student Services 1-888-822-UTSI (8874)-37228

APPLICATION FOR ADMISSION

No student will be allowed to register unless a completed Application for Admission to the Graduate School of the University of Tennessee, Knoxville (UTK) is on file in the Registrar's Office. An Application for Admission to the UTK Graduate School must be accompanied by a $60.00 non-refundable application fee, payable to The University of Tennessee Space Institute. Applicants are required to provide one official transcript of all undergraduate and graduate records. Students may apply on-line at http://admissions.utk.edu/graduate/apply.shtml [click on APPLY ONLINE and Follow Directions]. Send Applications for Admission, transcripts, GRE scores (if required); and if international application, TOEFL scores to the Admissions Office, A-200, Mail Stop 1, UTSI, Tullahoma, TN 37388-9700.
PAYMENT OF FEES

Late fees will begin on January 11, 2012. The only credit/debit cards The University of Tennessee Space Institute accepts are Visa, MasterCard and Discover.

NEW FOR FALL 2011

In February 2011, a new fee structure for students who are enrolled in dual campus locations was approved beginning Fall 2011. The University of Tennessee, Knoxville allows students to enroll in multiple campuses which include the following: Knoxville, UTSI, Distance Education, Nashville School of Social Work and off-campus locations. Students enrolling in dual campus locations will be assessed all fees for each campus they are enrolled. For example, students enrolled in classes on the Knoxville campus and also taking Distance Education courses will be assessed the per hour rate of all the fees for the Knoxville campus (Maintenance, Out-of-State Tuition, Programs and Service, Health, Technology, Facilities, Transportation, and any course fees that may be associated with a particular class) and the per hour rate of all the fees for the Distance Education courses (Maintenance, Out-of-State Tuition, the Distance Education Course Fee, and any course fees that may be associated with a particular course). The Out-of-State Tuition will be charged only to students who are classified as out-of-state per the appropriate Admissions Office.

FEES OF DISTANCE STUDENTS

Distance students should contact their departmental coordinator to determine the amount of the access fee.

Aviation Systems  Stephen Corda   931-393-7413   scorda@utsi.edu
Engineering Mgt.  Charlotte Henley  931-393-7293  chenley@utsi.edu

TUITION AND/OR MAINTENANCE FEES*

Full Fees For In-State Students (per semester)

Maintenance Fee .......................................................... .................................................. $4,166.00*
Programs and Services Fee .......................................................... .......................... 90.00
Total ........................................................................................................ $4,256.00

Full Fees For Out-Of-State Students (per semester)*

Maintenance Fee .......................................................... .................................................. $4,166.00*
Programs and Services Fee .......................................................... .......................... 90.00
Tuition ........................................................................................................ $8,421.00*
Total ........................................................................................................ $12,677.00

Fall 2011 an additional $50.00 per credit hour with no cap will be charged to ALL ENGINEERING COURSES (including courses that are cross-referenced).

*All fees are subject to changes approved by the Board of Trustees prior to the beginning of the term.
TUITION FOR PART-TIME STUDENTS

Part time students may elect to pay fees computed by the semester hour credit as follows:

<table>
<thead>
<tr>
<th></th>
<th>IN-STATE</th>
<th>OUT-OF-STATE</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$464.00 per semester hour</td>
<td>$1,400.00 per semester hour</td>
</tr>
<tr>
<td>3 hours</td>
<td>$1,392.00</td>
<td>$4,200.00</td>
</tr>
</tbody>
</table>

ENGINEERING FEE

On July 1, 2007, the Computer Science Department merged with the Engineering Department. Beginning Fall 2008, a special per credit hour fee will be assessed on engineering and computer science courses offered through the College of Engineering and the College of Agricultural Sciences and Natural Resources. The additional funds will be used to acquire state-of-the-art equipment, expand first-year programs for Engineering students, and provide faculty with professional development opportunities to bring the latest knowledge into the classroom. The Colleges will retain the funds generated from this fee for their use.

PROGRAMS AND SERVICES FEE

All students enrolled in nine semester hours or more for Fall or Spring Semester are assessed an activity fee of $90.00 per semester. Part-time students taking fewer than nine hours will be assessed at the rate of $10.00 per semester hour. The Programs and Services Fee is non-refundable. Research assistants and fellowship/scholarship students who may have a waiver of fees (tuition), must pay appropriate University Programs and Services Fee.

Part-time students enrolled for recorded classes at off campus centers and students residing out of state are not required to pay the Programs and Services Fee.

RETURNED CHECK POLICY

All checks are deposited the day they are received. A $30.00 service charge will be assessed when checks fail to clear the bank on which drawn. In addition, if the returned check is in payment of initial fees and charges, the late payment fee in effect at the time the check is redeemed will be added to the returned check service fee. Returned checks will not be re-deposited. Cash or a cashier's check is required for payment of a returned check, late fee, and service charges. Failure to clear returned checks will result in the forfeiture of all University services including the receipt of grades, transcripts, and schedules of classes.

DEFERRED PAYMENT PLAN

Although fees, rent and other University expenses are due and payable at the beginning of each term, a full-time student in good financial standing with a definite anticipated source of funds may request the deferment of up to 50% of the total charges at registration. The remaining balance for the term is due approximately 45 days after the first due date. All financial aid monies must be applied to fees before a deferment will be considered. A deferred payment service fee of $20.00 is assessed when any portion of tuition, fees, and other charges are deferred with the approval of the Business Office. An additional $35.00 late payment charge will be assessed if the second installment is not paid on or before the due date. For more details, contact the Business Office.
LATE PAYMENT FEES

A Late Payment Fee of $35.00 will be added to each VOLXpress account if the minimum payment amount which is printed on the statement is not received by the Bursar’s Office on or before the published due date. This does not include beginning of term registration statements which will result in cancellation of schedules if the minimum payment is not met. Late payment fees are exclusive of all other charges and are due when assessed whether or not the student receives a VOLXpress statement. Accounts are subject to a late fee of $45.00 if there is an account balance at mid-semester. The fee is assessed in addition to the unpaid fees and charges and the account balance must be paid in order to access registration services, receive a transcript, grades, or a diploma.

TUITION/FEES POLICY FOR DROPPED COURSES OR WITHDRAWAL

THE PERCENTAGE TUITION REFUNDS SPECIFIED ON THE FOLLOWING PAGE ARE APPLICABLE WHEN A STUDENT DROPS ONE OR MORE COURSES (INCLUDING TOTAL WITHDRAWAL). Students who drop courses and continue with a reduced course load are eligible for a refund only if the total charges at the semester hour rate for the courses continued plus the percentage assessed at the semester hour rate for the courses dropped results in an amount less than that paid. The Programs and Service Fee is non-refundable.

******************************************************************************
A COURSE IS NOT OFFICIALLY DROPPED UNTIL A CHANGE OF REGISTRATION FORM HAS BEEN PROCESSED BY THE REGISTRAR'S OFFICE. CANCELED COURSES OR FAILURE TO ATTEND CLASS DOES NOT AUTOMATICALLY WITHDRAW OR DROP A STUDENT FROM THE UNIVERSITY OR CLASS --- A CHANGE OF REGISTRATION FORM MUST BE COMPLETED.
******************************************************************************

The following percentage assessments are applicable for courses dropped (if fees are assessed at the semester hour rate):

<table>
<thead>
<tr>
<th>DROP DATE</th>
<th>CHARGE</th>
<th>REFUND</th>
</tr>
</thead>
<tbody>
<tr>
<td>January 11 – 15, 2012</td>

<td>60% CHARGE</td>
<td>40%</td>
</tr>
<tr>
<td>February 1, 2012 - End of Term</td>
<td>100% CHARGE</td>
<td>NO REFUND</td>
</tr>
</tbody>
</table>

TUITION/FEE REFUND POLICY FOR WITHDRAWALS

Withdrawal from school for the term after registration has been processed, even though classes have not been attended or fees paid, must be by official notification to the Registrar's office. The effective date of withdrawal is the date the Registrar's office is notified by completion of the Change of Registration request form. FAILURE TO ATTEND CLASS DOES NOT AUTOMATICALLY CANCEL ENROLLMENT. The appropriate percentage of fees will be charged unless the Registrar's Office is notified by the close of the last day designated for registration and before the first official day of classes for the semester or term. WITHDRAWAL DOES NOT CANCEL FEES AND CHARGES ALREADY INCURRED. THE DROP/ADD PROCEDURE CAN NOT BE USED TO WITHDRAW FROM SCHOOL FOR THE SEMESTER OR TERM. When a course is canceled by UTSI administration, the students who have registered for the course will be notified by either the instructor and/or Charlene Hane, Student Services. Any questions concerning registration, please contact Charlene Hane, UTSI, Office D-100, 931-393-7228.
The University of Tennessee Space Institute, in accordance with federal regulations, follows the policy and procedures below for calculating refunds and repayments for financial aid.

**REFUNDS**

Refunds are defined as the portion of maintenance and/or tuition and University housing charges due as rebate when a student withdraws or is expelled from the University. The amount of a refund is determined by the Drop Date Charge fee table.

**REPAYMENTS**

Repayments are defined as that portion of aid, received by a student after the University direct charges have been paid by that aid, which must be repaid by a student when a student withdraws or is expelled. The amount of the repayment is determined by the Drop Date Charge fee table.

Refunds and repayments to the Title IV programs are determined according to the formula published in the current Federal Student Financial Aid Handbook. The Business and Admissions Offices are responsible for determining the amount of the refund and/or repayment and distributing the correct amount back to the financial aid programs according to the Refund/Repayment Allocation Policy.

**WITHDRAWAL (TOTAL) FROM THE UNIVERSITY**

If, after registering for classes and either returning your fee payment or your Confirmation of Attendance form to the Bursar’s Office, you decide not to enroll for this term, you must immediately notify Charlene Hane, Student Services, at UTSI. If you withdraw officially on or before a Change of Registration deadline, but after the no “W” deadline for a particular session, the grade of “W” will be issued.

**GRADES**

Students may obtain their grades through the web at MyUTK or contact Charlene Hane, Student Services, Office D-100, (931) 393-7228.

**GRADUATE STUDENTS CHANGE OF REGISTRATION AFTER THE DEADLINE**

To change registration in any way after the deadline, a graduate student must present a request, signed by the instructor(s) and adviser as evidence of their knowledge of the request to Charlene Hane, Student Services at UTSI. Graduate students must verify that ALL changes have been approved by their academic adviser. If the Office of Graduate Student Services approves the change of registration, the change will be noted on the student’s permanent record. **THE DROP DEADLINE FOR GRADES AND THE DROP DEADLINE FOR FEE REFUNDS ARE NOT THE SAME.**

**FULL-TIME STUDENTS**

Students enrolled in at least 9 semester hours during the Fall/Spring semesters or 6 hours in the Summer Term are considered full-time students. Research Assistants must be full-time students and also enroll in one of the MABE 595 seminars or a PHYS 599 seminar each term, unless a waiver is granted by the Associate Executive Director.
REMOVAL OF INCOMPLETE GRADES

All Incomplete Grades (I) must be removed prior to graduation. The instructor, in consultation with the student, decides the terms for the removal of the I, including the time limit for removal. If the I is not removed within one calendar year, the grade will be changed to an F. The course will not be counted in the cumulative grade point average until a final grade is assigned. No student may graduate with an I on the record. Students planning to graduate Fall Semester 2011 must remove all INCOMPLETE GRADES by April 27, 2012. Contact Charlene Hane, Student Services, to remove an Incomplete Grade.

REPEATING A COURSE

No graduate student may repeat a course for the purpose of raising a grade already received, with the exception of a NC course. A graduate student cannot do additional work nor repeat an examination to raise a final grade.

ADMISSION TO CANDIDACY

MASTER OF SCIENCE DEGREE:

Each M.S. student, including IE Capstone Project students, is responsible for submitting a completed and signed Admission to Candidacy Application at least one semester prior to receiving the degree.

Candidacy committee changes or course changes must be submitted to the committee chairman using a Revision form. If changing from a thesis option to a non-thesis option or vice versa, a new Admission to Candidacy Application must be submitted. All forms must be processed through Student Services.

DOCTORAL DEGREE:

A Doctoral Committee should be formed during the student's first year of doctoral study. Any changes to the doctoral committee (deletions or additions) must be submitted to the Committee Chairman using a Revision form for approval. Each doctoral student is responsible for submitting a completed Admission to Candidacy form signed by the doctoral committee at least one semester prior to receiving the degree. All forms must be processed through Student Services.

CONTINUOUS REGISTRATION OF DOCTORAL STUDENTS

All doctoral students must be registered for doctoral dissertation research course 600 (minimum of 3 hrs.) on a continuous basis starting when the doctoral research proposal is approved, admission to candidacy is accepted, or registration for course 600 is begun, whichever comes first, including ALL Summer terms and the semester in which the dissertation is approved and accepted by The Graduate School. A leave of absence may be requested for extenuating circumstances. The procedure can be found in the UTK Graduate catalog.

FINAL EXAMINATION FOR NON-THESIS, CAPSTONE PROJECT STUDENTS, THESIS AND DISSERTATION STUDENTS

A candidate presenting a thesis or dissertation must pass a final oral examination on all work offered for the degree. The examination is scheduled through Student Services. Failure to notify Student Services of the examination date will put the student at risk for graduating that semester. Final examinations not properly scheduled MUST be repeated. The final draft of the thesis must be distributed to the committee members at least two weeks prior to the date of the final
examination. In case of a grade of "Fail", the candidate may not apply for re-examination until the following semester. The result of the second examination is final.

**UT POLICY ON INSURANCE FOR INTERNATIONAL STUDENTS**

All foreign national students registered with the University of Tennessee, Knoxville, are required to have comprehensive medical insurance. The policy for the 2011-2012 academic year is provided by Aetna. The premium **must** be paid before registration. Contact the Human Resources Office (A-104 ext. 37267) for further information.

**GENERAL SEMINAR**

A number of seminars of interest to all UTSI students and general public will be offered throughout the semester.

**GENERAL SEMINAR**

A number of seminars of interest to all UTSI students and general public will be offered throughout the semester.

**FINAL EXAM DATES FOR SPRING SEMESTER 2012**

STUDY PERIOD…..April 30, 2012  
FINAL EXAMS …..May 1, 2, and 3, 2012

**HONOR STATEMENT**

The following Honor Statement is signed by all students applying to The Graduate School:

"An essential feature of The University of Tennessee, Knoxville is a commitment to maintaining an atmosphere of intellectual integrity and academic honesty. As a student of the University, I pledge that I will neither knowingly give nor receive any inappropriate assistance in academic work, thus affirming my own personal commitment to honor and integrity."

For official information on all UTK Graduate School policies, refer to the current UTK Graduate Catalog available from Charlene Hane, Student Services, D-100.

The University of Tennessee Space Institute reserves the right to cancel any class with an insufficient number of students, or for other reasons.
THE UNIVERSITY OF TENNESSEE POLICY ON A DRUG-FREE CAMPUS AND WORKPLACE

In support of the Drug-Free Workplace Act of 1998 (Public Law 100-690) and the Drug-Free Schools and communities Act of 1989, the University of Tennessee is notifying all students, faculty, and staff of the following university policy approved by the UT Board of Trustees on 21 June 1990.

It is the policy of the University of Tennessee to maintain a safe and healthful environment for its students and employees. Therefore, university policy prohibits the unlawful use, manufacture, possession, distribution, or dispensing of drugs ("controlled substances" as defined in the Controlled Substances Act, 21 U.S.C. 812) and alcohol on university property or during university activities.

Violation of this policy is grounds for disciplinary action--up to and including immediate discharge for an employee and permanent dismissal of a student. Federal and state laws provide additional penalties for such unlawful activities, including fines and imprisonment (21 U.S.C. 841 et seq.; T.C.A. 39-6-401 et seq.). Local ordinances also provide various penalties for drug- and alcohol-related offenses. The university is bound to take all appropriate actions against violators, which may include referral for legal prosecution or requiring the individual to participate satisfactorily in an approved drug use or alcohol abuse assistance or rehabilitation program.
SPECIAL ANNOUNCEMENT

THOMAS JEFFERSON LECTURE

April, 2012 (Tentative)

3:00 P.M.

UTSI Auditorium

There will be NO scheduled classes at this time by request of Dr. Buddy Moore, Executive Director of the University of Tennessee Space Institute

Faculty will reschedule any afternoon classes tentatively scheduled for April, 2012 (Tentative) between 2:30 – 3:45 p.m.
Contact Charlene Hane, Student Services for available times and rooms for rescheduling

   014 CRN 25693  Vakili

AE  502 Registration for Use of Facilities (1-15)
SEC.  002 CRN 25702  Moeller

Required for the student not otherwise registered during any semester when student uses university facilities and/or faculty time before degree is completed.
Grading Restriction: Satisfactory/No Credit grading only.
Repeatability: May be repeated.
Credit Restriction: May not be used toward degree requirements.
Credit Level Restriction: Graduate credit only.
Registration Restriction(s): Minimum student level – graduate.

AE  512 Viscous Flow (3)
SEC.  001 CRN 25703
TEXT: Frank M. White; *Viscous Flow; 3rd Ed.*
TIME: Monday & Thursday 8:30 – 9:45 E-111
PROFESSOR: Dr. Ahmad Vakili

Derivation of fundamental equations of compressible viscous flow; boundary conditions for viscous heat-conducting flow; exact solutions for Newtonian viscous flow (Navier-Stokes) equations for special cases; similarity solutions. Thermal boundary layers, stability of laminar flows, transition to turbulence, 2-D turbulent boundary layer equations. Incompressible-turbulent mean flow, and compressible boundary layer flow.
Registration Permission: Consent of instructor.
AE  522  Aerodynamics of Compressible Fluids II (3)
SEC.  001  CRN  28699
TEXT:  TBD
TIME:  Monday & Thursday      1:00 – 2:15       F-252
PROFESSOR:  Dr. Trevor Moeller

One-dimensional internal and external flow; waves; small perturbation theory; slender body theory; similarity rules; method of characteristics.
(DE) Prerequisite(s): 521.

AE  539  Continuum Mechanics (3) (Same as BME 539/ES 539/ME 542)
SEC.  002  CRN  29439
TEXT:  TBD
TIME:  Monday & Wednesday      2:30 – 3:45       E-111
PROFESSOR:  Dr. Trevor Moulden

Cartesian tensors, transformation laws, basic continuum mechanics concepts; stress, strain, deformation, constitutive equations. Conservation laws for mass, momentum, energy. Applications in solid and fluid mechanics.
Cross-listed: (Same as Biomedical Engineering 539; Engineering Science 539 Mechanical Engineering 539.)

AE  542  Fluid Mechanics II (3) (Same as ES 542/ME 542)
SEC.  001  CRN  25707
TIME:  Tuesday & Friday      9:15 – 10:30       E-211
PROFESSOR:  Dr. Basil Antar

Cross-listed: (Same as Engineering Science 542; Mechanical Engineering 542.)
(DE) Prerequisite(s): 541.

AE  562  Fundamentals of Aeroacoustics (3)
SEC.  001  CRN  27418  (Video Recorded)
TEXT:  Class Notes
TIME:  Monday & Wednesday      4:00 – 5:15       E-111
PROFESSOR:  Dr. Joseph Majdalani

Generation, propagation and absorption of sound in static and moving media.

The purpose of this course is to provide a broad coverage of the fundamentals of the theory and measurement of acoustics and noise ranging from the production of sound from vibrations and waves, acoustical devices, aeroacoustics, sound in enclosed spaces, etc.
Registration Permission: Consent of instructor.

TEXT: None
TIME: Will be announced through email
PROFESSOR: Dr. Ahmad Vakili

All phases of aerospace engineering, reports on current research at the University of Tennessee, Knoxville, and UT-ISE.
Grading Restriction: Satisfactory/No Credit grading only.
Repeatability: May be repeated. Maximum

*AE 599 Special Topics in Aerospace Engineering: Aircraft Design (3) (Same as AS 506) CANCELLED
SEC. 001 CRN 25713 (Video Recorded)
TIME: Tuesday & Friday 1:00 – 2:15 E-111
PROFESSOR: Dr. Peter Solies

Design process, compromise of conflicting requirements, economical, industrial, and legal aspects.
Definition of mission requirements, synthesis and optimization techniques, safety and reliability, systems integration, standards and regulations, teamwork, and decision-making process.
Repeatability: May be repeated. Maximum 6 hours.

*AE 599 Special Topics in Aerospace Engineering: Hybrid Rocket Propulsion (3) (ME 599) CANCELLED
SEC. 005 CRN 28420
TEXT: Class Notes
TIME: Monday & Thursday 1:00 - 2:15 B-112
PROFESSOR: Dr. Joseph Majdalani

This course reviews the fundamentals of hybrid rocket propulsion with special emphasis on application-based design and system integration, propellant selection, flow and regression rate modeling, solid fuel pyrolysis, scaling effects, transient behavior, and combustion instability. Advantages and disadvantages of both conventional and swirl-driven vortex hybrid configurations are examined. Course includes testing of laboratory-scale hybrid rockets.
Prereq: ME 581 or consent of instructor.
AE 599 Special Topics in Aerospace Engineering: Aircraft Flight Controls (3) (Same as AS 516)
SEC. 008 CRN 29829 (Video Recorded)
TIME: Tuesday & Friday 1:00 – 2:15 E-111
PROFESSOR: Dr. Peter Solies
Feedback control concepts, root locus techniques, bode analysis, PID control design, and controller and observer design concepts applied to aircraft. Complex analysis and matrix algebra.

Static and dynamic longitudinal, directional, and lateral stability of aerospace vehicles will be investigated. Topics include:
* Contribution of vehicle components to stability and control
* Motion with fixed and free control surfaces
* Steady flight and maneuvering flight
* Flight test techniques
* Introduction to control theory and design of automatic controls

AE 600 Doctoral Research and Dissertation (3-15)
SEC. 015 CRN 28714 Antar
010 CRN 25726 Corda
018 CRN 28248 Flandro

Required for the student not otherwise registered during any semester when student uses university facilities and/or faculty time before degree is completed.
Grading Restriction: Satisfactory/No Credit grading only.
*AS 506  Air Design (3) (Same as AE 599) CANCELLED
SEC. 001 CRN 25816  (Video Recorded)
TIME: Tuesday & Friday  1:00 – 2:15  E-111
PROFESSOR: Dr. Peter Solies

Design process, compromise of conflicting requirements, economical, industrial, and legal aspects.
Definition of mission requirements, synthesis and optimization techniques, safety and reliability, systems integration, standards and regulations, teamwork, and decision-making process.

AS 510  Special Topics in Aviation Systems: Introduction in Avionics II (3)
SEC. 001 CRN 25817  (Video Recorded)
TIME: Tuesday & Friday  10:30 – 11:45  E-113
PROFESSOR: Dr. Alfonso Pujol, Jr.

Avionic systems and communications, including analog and digital systems, distance measuring equipment, transponder, radar altimeter, GPS/satellite navigation, electronic flight instrument system, cockpit voice and flight data recorders, weather detection, traffic alert and collision avoidance system, electrical systems, aviation bands and frequencies, and other topics are also discussed.
Current problems.

AS 510  Special Topics in Aviation Systems: Systems Engineering (3)
SEC. 002 CRN 25818  (Video Recorded)
TIME: Monday & Thursday  8:30 – 9:45  E-111
PROFESSOR: Dr. Peter Solies

The focus of this course is on engineering problem solving in multi-disciplinary applications with complex systems interactions. Instruction will be provided in methodologies and tools used to deal with large complex systems to deliver system performance that meets user requirements. Methodologies discussed will include system life cycles, requirements development, verification and validation, engineering review processed, hazard analysis, fault trees, reliability block diagrams, system flow diagrams, weight and cost estimating, technical budget management, engineering economic analysis, interface control, and deterministic and monte carlo definition of integrated flight design environments. Special topics will include software integration; interconnect wiring, fault tolerance and redundancy management.

Current Problems.

Repeatability: May be repeated. Maximum 15 hours.
Credit Restriction: Maximum of 12 hours may be applied toward degree requirements.
Registration Permission: Consent of instructor.

AS 516 Aircraft Flight Controls (Stability and Control) (Same as AE 599 008 crn 29829) (3)
SEC. 001 CRN 25819 (Video Recorded)
TIME: Tuesday & Friday 1:00 – 2:15 E-111
PROFESSOR: Dr. Peter Solies

Feedback control concepts, root locus techniques, bode analysis, PID control design, and controller and observer design concepts applied to aircraft. Complex analysis and matrix algebra.

Static and dynamic longitudinal, directional, and lateral stability of aerospace vehicles will be investigated. Topics include:

* Contribution of vehicle components to stability and control
* Motion with fixed and free control surfaces
* Steady flight and maneuvering flight
* Flight test techniques
* Introduction to control theory and design of automatic controls

AS 521 Experimental Flight Mechanics: Fixed Wing Performance (3)
SEC. 001 CRN 25820
TIME: Tuesday & Friday 10:00 – 11:15 Airport Classroom
PROFESSOR: Borja Martos

Performance. Experimental techniques for flight mechanics. Specially equipped airborne laboratory: student participation in series of experiments demonstrating acquisition of flight test data. Necessary theory supports class experiments. Tests cover broad range of aircraft performance, stability and control characteristics in addition to instrumentation and data reduction methods.
(RE) Prerequisite(s): Aerospace Engineering 422.

AS 550 Project in Aviation Systems (3)
SEC. 001 CRN 25821 Corda
003 CRN 25823 Martos
004 CRN 25824 Muratore
005 CRN 25825 Pujol

BIOMEDICAL ENGINEERING

BME 500 Thesis (1-15)
SEC. 012 CRN 29633 Johnson

BME 539 Continuum Mechanics (3) (Same as AE 539/ES 539/ME 539)
SEC. 002 CRN 29440
TEXT: TBD
TIME: Monday & Wednesday 2:30 – 3:45 E-111
PROFESSOR: Dr. Trevor Moulden

Cartesian tensors, transformation laws, basic continuum mechanics concepts; stress, strain, deformation, constitutive equations. Conservation laws for mass, momentum, energy. Applications in solid and fluid mechanics.
Cross-listed: (Same as Aerospace Engineering 539; Engineering Science 539; Mechanical Engineering 539.)

BME 595 Seminar (1)
SEC. 002 CRN 29870
TEXT: None
TIME: Will be announced through email
PROFESSOR: Dr. Jackie Johnson

All phases of biomedical engineering, reports on current research at UTK and UTSI.
Grading Restriction: Satisfactory/No Credit grading only.
Repeatability: May be repeated. Maximum 20 hours.

BME 600 Doctoral Research and Dissertation (3-15)
SEC. 011 CRN 29634 Johnson

BME 610 Advanced Topics in BME: Biofunctionalization of Nanomaterials (3)
SEC. 003 CRN 29033
TEXT: Challa Kumar; Biofunctionalization of Nanomaterials;
TIME: Tuesday & Friday 2:30 – 3:45 F-252
PROFESSOR: Dr. Jackie Johnson

Current research topics of interest in biomedical engineering.

This course is the integration of nanomaterials and medicine and the exploration of potential future research projects in biomedical engineering. The course will progress from predominantly instruction to discussion on a potential proposal to be summarized in a 4-page white paper, a cover sheet, mock budget and biosketch – the students can either work as a group or individually. There will be no final exam.
Repeatability: May be repeated. Maximum 9 hours.
Registration Restriction(s): Minimum student level – graduate.
Registration Permission: Consent of instructor.

COMPUTER SCIENCE

*CS 472 Numerical Analysis II (3) (Same as Math 472) CANCELLED

Cross-listed: (Same as Math 472.)
(RE) Prerequisite(s): 231; 200 or 251 or 257.
(DE) Prerequisite(s): 371.
Comment(s): Knowledge of a high-level programming language required.

TIME:  Monday & Wednesday      2:30 – 3:45       E-111
PROFESSOR:  Dr. Trevor Moulden
Cartesian tensors, transformation laws, basic continuum mechanics concepts; stress, strain, deformation, constitutive equations. Conservation laws for mass, momentum, energy. Applications in solid and fluid mechanics.
Cross-listed: (Same as Aerospace Engineering 539; Biomedical Engineering 539; Engineering Science 539.)

ME  540  Perturbation Methods in Engineering (3)
SEC.  001  CRN  29539  (Video Recorded)
TEXT:  Class Notes
TIME:  Monday & Wednesday     5:30 – 6:35       E-111
PROFESSOR:  Dr. Joseph Majdalani
Solution of nonlinear problems in solid and fluid mechanics and dynamics by use of asymptotic perturbation techniques. Asymptotic expansions, regular and singular perturbations and applications in dynamics, celestial mechanics, potential, viscous and compressible flows. Uniformly valid approximations in various physical problems. Generalized boundary-layer techniques. Coordinate straining techniques; Poincar’s method. Matched asymptotic expansions and multiple scales. Problems with several time or length scales. Examples taken from various fields of science.
Registration Permission: Consent of instructor.

ME  542  Fluid Mechanics II (3) (Same as AE 542/ ES 542)
SEC.  001  CRN  22577
TEXT:  Ronald L. Panton; Incompressible Flow; 3rd Edition; John Wiley;
TIME:  Tuesday & Friday       9:15 – 10:30       E-211
PROFESSOR:  Dr. Basil Antar
Cross-listed: (Same as Aerospace Engineering 542; Engineering Science 542.)
(DE) Prerequisite(s): 541.

ME  582  Rocket Propulsion II (3)
SEC.  001  CRN  29038
TEXT:  George P. Sutton; Rocket Propulsion Elements; 8th Edition; Wiley, New York 2001;
ISBN 0471326429
TIME:  Tuesday & Friday        1:00 – 2:15       F-252
PROFESSOR:  Dr. Trevor Moeller
Solid propellant rocket performance, homogeneous and heterogeneous propellant chemistry and combustion system performance, thermal decomposition and gas phase reaction models; effect of chamber pressure and additives on solid propellant burn rates, erosive burning; analysis of two-phase solid rocket exhaust flow. Introduction to nuclear and electric propulsion; electrical resistance and electric field (ion) engine performance, magnetohydrodynamic thrusters, traveling wave thrusters; exotic propulsion systems.
Registration Permission: Consent of instructor.

ME  585  Turbomachinery II (3)
Ideal cycle analysis of turbine engines, real cycle analysis, component performance analysis, component
design and systems integration (inlets, nozzles, combustors, compressors, turbines), flowthrough theory,
turbine engine component matching, transient operation, surge and rotating stall, engine control systems,
structural considerations.

Comment(s): First-year graduate standing required.

Registration Permission: Consent of instructor.

Repeatability: May be repeated. Maximum 6 hours.

Comment(s): Enrollment limited to students in problems option.

Registration Permission: Consent of advisor.

This course reviews the fundamentals of hybrid rocket propulsion with special emphasis on application-
based design and system integration, propellant selection, flow and regression rate modeling, solid fuel
pyrolysis, scaling effects, transient behavior, and combustion instability. Advantages and disadvantages
of both conventional and swirl-driven vortex hybrid configurations are examined. Course includes testing
of laboratory-scale hybrid rockets.

Prereq: ME 581 or consent of instructor.

Repeatability: May be repeated. Maximum 6 hours.

Comment(s): Enrollment limited to students in problems option.

Registration Permission: Consent of advisor.

This course reviews the fundamentals of hybrid rocket propulsion with special emphasis on application-
based design and system integration, propellant selection, flow and regression rate modeling, solid fuel
pyrolysis, scaling effects, transient behavior, and combustion instability. Advantages and disadvantages
of both conventional and swirl-driven vortex hybrid configurations are examined. Course includes testing
of laboratory-scale hybrid rockets.

Prereq: ME 581 or consent of instructor.
ME 661 Advanced Vibrations (3)

Applying modern analytical and computational tools (phase space analysis, perturbation methods, bifurcation theory, chaos, etc.) in the analysis of nonlinear vibrations. Emphasis on coupled oscillators, continuous systems, limit cycle behavior, self-excited and nonlinear forced systems.

(DE) Prerequisite(s): 534.

Registration Restriction(s): Minimum student level – graduate.

PHYSICS

PHYS 500 Thesis (1-15)

PHYS 503 Physics Colloquium (1)

PHYS 512 Theoretical Physics II (3)
spectroscopy, and astrophysics.

Recommended Background: Familiarity with computational methods.

PHYS 522 Quantum Mechanics (3)
SEC. 002 CRN 29050
TEXT: [Link](http://www.amazon.com/Modern-Quantum-Mechanics-2nd-Sakurai/dp/0805382917/ref=cm_cr_product_top#)
TIME: Tuesday & Friday 10:45 – 12:00 E-211
PROFESSOR: Dr. Lloyd Davis

Fundamental principles of quantum mechanics, angular momentum, electron spin, particles in electric and magnetic fields, perturbation theory, variational methods, scattering theory; second quantization, quantization of electromagnetic field, emission, absorption, and scattering of light, bremsstrahlung, pair creation and annihilation. Application of quantum mechanics to problems of atomic, molecular, nuclear, and solid state physics.

(DE) Prerequisite(s): 521.

PHYS 541 Electromagnetic Theory (3)
SEC. 002 CRN 27424
TEXT: Jackson; *Classical Electrodynamics*; 2nd Edition
TIME: Monday & Thursday 10:45 – 12:00 B-210
PROFESSOR: Dr. Horace Crater

Review of electrostatics, magnetostatics, and quasi-static problems; Maxwell’s field equations and their solutions in dielectric and conducting media; electrodynamics and relativity, retarded potentials and gauge transformations, radiation produced by accelerating charges.

(DE) Prerequisite(s): 571.

*PHYS 551 Statistical Mechanics (3) CANCELLED
SEC. 001 CRN 29052 (Video Recorded)
TEXT: TBD
TIME: Tuesday & Thursday 8:30 – 9:45 E-113
PROFESSOR: Dr. Lloyd Davis

Ergodic theory, classical ensemble theory, quantum mechanical ensembles, relation of statistical mechanics to thermodynamics, transport theory and approach to equilibrium, phase transition, fluctuations and correlations.

(RE) Prerequisite(s): 521, 531, and 571.

PHYS 572 Mathematical Methods in Physics II (3) (Same as Math 518)
SEC. 002 CRN 27757
TIME: Monday & Thursday 2:30 – 3:45 E-113
PROFESSOR: Dr. Christian Parigger

Advanced Problems. Topics may vary according to interests of students and instructor.

Cross-listed: (Same as Mathematics 518.)

(DE) Prerequisite(s): 571.
PHYS 573 Numerical Methods in Physics (3)
SEC. 002 CRN 25162
TIME: Tuesday & Friday 2:30 – 3:45 E-211
PROFESSOR: Dr. Christian Parigger

Numerical methods for solution of physical problems, use of digital computers, analysis of errors.

(DE) Prerequisite(s): 571 or consent of instructor.

PHYS 593 Independent Study - Modern Physics: General Relativity (1)
SEC. 002 CRN 29858
TEXT: TBD
TIME: TBD
PROF: Dr. Horace Crater

This course will explore an approach to Einstein’s general relativity developed by the physicist Mendel Sachs.

Repeatability: May be repeated. Maximum 15 hours.

PHYS 599 Physics Seminar (1)
SEC. 007 CRN 25173
TEXT: None
TIME: Each 2nd Thursday 3:30 – 5:00 H-111
PROFESSOR: Dr. Christian Parigger

(a) Mechanics; (b) Radiation; (c) Heat and Thermodynamics; (d) Electricity and Magnetism; (e) Modern Physics.

Repeatability: May be repeated with consent of department. Maximum 18 hours.

PHYS 600 Doctoral Research and Dissertation (3-15)
SEC. 006 CRN 25180 Chen
002 CRN 25176 Crater
004 CRN 25178 Davis
003 CRN 25177 Lewis
005 CRN 25179 Parigger

PHYS 605 Laser Spectroscopy (3)
SEC. 001 CRN 29055

**TIME:** Monday & Thursday 1:00 – 2:15 E-113  
**PROFESSOR:** Dr. Christian Parigger

Applications of lasers to spectroscopy of atomic and molecular systems; absorption, laser-induced fluorescence, and Raman spectroscopy; molecular and atomic coherence, quantum beats, resonance fluorescence, photon echoes, self-induced transparency; saturation and Doppler-free spectroscopy; laser cooling and trapping.

*(DE) Prerequisite(s): 521 and 541.*  
*Registration Restriction(s): Minimum student level – graduate.*

**PHYS 606 Nonlinear Optics (3)** CANCELLED  
SEC. 001 CRN 29659 (Videotaped)  
**TEXT:** Boyd; *Nonlinear Optics*; 3rd Edition;  
**TIME:** Tuesday & Thursday 8:30 – 9:45 E-113  
**PROFESSOR:** Dr. Lloyd Davis

Nonlinear optical susceptibilities, wave propagation in nonlinear media, sum-frequency and difference frequency generation, harmonic generation, parametric amplification and oscillation, stimulated Raman processes, two- and multi-photon processes, four-wave mixing and phase conjugation, transient coherent optical effects and free induction decay, optical breakdown and nonlinear effects in plasmas.

*(DE) Prerequisite(s): 522.*  
*Registration Restriction(s): Minimum student level – graduate.*

**PHYS 611 Advanced Quantum Mechanics and Field Theory (3)**  
SEC. 002 CRN 27756  
**TEXT:** Sakurai; *Advanced Quantum Mechanics*  
**TIME:** Monday & Thursday 1:00 – 2:15 E-111  
**PROFESSOR:** Dr. Horace Crater

Survey of problems and methods. Topics of current interest.

Survey of problems and methods in advanced quantum mechanics, including second quantization, the Dirac equation, and quantum electrodynamics as well as topics of current interest.  
*Comment(s): Intended for all graduate students.*  
*Registration Restriction(s): Minimum student level – graduate.*
