REGISTRATION ANNOUNCEMENT
FALL SEMESTER 2012

REGISTRATION PROCEDURE

ADVISING

Graduate students should contact their departmental faculty to arrange an advising appointment. For students not accepted into specific programs, the Assistant to the Dean of Graduate Studies or his/her designee may act as advisor. The web registration system will ask if you have discussed your program with your advisor. Answer ‘yes’ if you have; otherwise, you cannot continue with the registration process. Graduate School Web Page: http://gradschool.utk.edu/.

REGISTRATION

Students will register at http://my.utk.edu. You will need to log in using your NetID and your NetID password. If you do not know your NetID and NetID password, go to http://registrar.utk.edu/registration.shtml.

*Log in to MyUTK. You can find a link by looking under “M” on the A-Z index (http://www.utk.edu/alphabet/) or by typing myutk.utk.edu directly into your browser. You will need to log in by typing utk/your NetID in the “username” field and then your NetID password in the “password” field.

*Before you attempt to register, clear and pay any financial holds (parking tickets, library fines, fees, etc.).

*Look under the “For Your Review” heading on the MyUTK portal page (located in the upper right-hand corner) for notification of any holds you may have.

*Once you are logged into “My UTK,” scroll down to “UTK Student Links.” Click on “Search for Classes” to look up sections and then register.

*Print a copy of your schedule when you are finished registering.

If you have any questions, call the Office of the University Registrar at 865-974-2101 or contact Charlene Hane in Student Services room D-100, phone 931-393-7228, email chane@utsi.edu.

FINANCIAL CALENDAR

Statement information available on MyUTK.UTK.EDU…………………………..August 1, 2012

Priority Registration Payment/Confirmation Deadline……..August 20, 2012 at 4:30 p.m. (EST)

Late Registration/Late Fees Begin………………………………………………...August 22, 2012

Late Registration Payment/Confirmation Deadline………..August 31, 2012 at 4:30 p.m. (EST)

NOTE: PAYMENT AND THE CONFIRMATION OF ATTENDANCE FORM MUST BE RECEIVED BY THESE DEADLINES WHETHER OR NOT YOU HAVE RECEIVED A VolxPress e-STATEMENT. You may view your account at MyUTK.
***FINAL/LATE REGISTRATION PERIOD – currently unavailable, but will be listed at the link below once published:

http://web.utk.edu/~bursar/volxfees.html#final

CREDIT CARD PAYMENTS

NOTE: If you pay your fees using MyUTK with a credit/debit card (Discover, VISA, Mastercard) you will be accessed a 2.5% service fee. To avoid this service fee you will need to make payment to the UTSI Budget and Finance Office.

SPECIAL BILLING – THIRD PARTY BILLING:

The Budget and Finance Office will generate a billing after the student has provided a letter of authorization from the third party sponsor. Authorization must include the sponsor’s name and address as well as the maximum amount which will be paid for each specific term. The authorization can be mailed to UTSI Budget and Finance Office, MS#12, 411 B.H. Goethert Parkway, Tullahoma, TN 37388-9700 or email it to jboyles@utsi.edu. Since students are responsible for all University fees and charges, use of the third-party address as the student’s billing address is strongly discouraged.

STUDENTS ARE ULTIMATELY RESPONSIBLE FOR ALL CHARGES. THEY MUST COMPLETE A CONFIRMATION OF ATTENDANCE FORM AND MAKE CERTAIN MINIMUM PAYMENT AMOUNTS CREDITED OR AUTHORIZED ON OR BEFORE THE PAYMENT DUE DATE IN ORDER TO AVOID LATE PAYMENT FEE ASSESSMENT AND SCHEDULE CANCELLATION.

If you have any questions concerning third-party billing please call Jennifer Boyles at 931-393-7297 or 888-822-8874 ext. 37297 or by email jboyles@utsi.edu.

TOLL-FREE NUMBERS

For a specific office: 1-888-822-UTSI (8874) and the extension number.
For general information: 1-888-822-UTSI (8874)
Admissions Office: 1-888-822-UTSI (8874)-37213
Budget and Finance Office: 1-888-822-UTSI (8874)-37297
Student Services 1-888-822-UTSI (8874)-37228

APPLICATION FOR ADMISSION

No student will be allowed to register unless a completed Application for Admission to the Graduate School of the University of Tennessee, Knoxville (UTK) is on file in the Registrar's Office. An Application for Admission to the UTK Graduate School must be accompanied by a $60.00 non-refundable application fee, payable to The University of Tennessee Space Institute. Applicants are required to provide one official transcript of all undergraduate and graduate records. Students may apply on-line at http://admissions.utk.edu/graduate/apply.shtml [click on APPLY ONLINE and Follow Directions]. Send Applications for Admission, transcripts, GRE scores (if required); and if international application, TOEFL scores to the Admissions Office, A-200, Mail Stop 1, UTSI, Tullahoma, TN 37388-9700.

FEES

Late fees will begin on August 22, 2012. The only credit/debit cards The University of Tennessee Space Institute accepts are Visa, MasterCard and Discover.
NEW FOR FALL 2011

In February 2011, a new fee structure for students who are enrolled in dual campus locations was approved beginning Fall 2011. The University of Tennessee, Knoxville allows students to enroll in multiple campuses which include the following: Knoxville, UTSI, Distance Education, Nashville School of Social Work and off-campus locations. Students enrolling in dual campus locations will be assessed all fees for each campus they are enrolled. For example, students enrolled in classes on the Knoxville campus and also taking Distance Education courses will be assessed the per hour rate of all the fees for the Knoxville campus (Maintenance, Out-of-State Tuition, Programs and Service, Health, Technology, Facilities, Transportation, and any course fees that may be associated with a particular class) and the per hour rate of all the fees for the Distance Education courses (Maintenance, Out-of-State Tuition, the Distance Education Course Fee, and any course fees that may be associated with a particular course). The Out-of-State Tuition will be charged only to students who are classified as out-of-state per the appropriate Admissions Office.

UTSI students are assessed the per hour rate for the following: Maintenance, Tuition (if out-of-state), the UTSI Activity Fee, and any course fees that may be associated with a particular class. UTSI students taking mixed campus courses will follow the same fee assessment rules as above. The total per hour fee assessment will not exceed the Full-Time rate of 9 hours for Graduate students.

FEES OF DISTANCE STUDENTS

Distance students should contact their departmental coordinator to determine the amount of the access fee.

Aviation Systems  Peter Solies  931-393-7289  psolies@utsi.edu
Engineering Mgt.  Charlotte Henley  931-393-7293  chenley@utsi.edu

TUITION AND/OR MAINTENANCE FEES

Full Fees for In-State Students (per semester)

Maintenance Fee ............................................................................................................. $4,500.00*
Programs and Services Fee ............................................................................................ 90.00
Total ................................................................................................................................ $4,590.00

Full Fees for Out-Of-State Students (per semester)

Maintenance Fee ............................................................................................................. $4,500.00*
Programs and Services Fee ............................................................................................ 90.00
Tuition ............................................................................................................................. $9,094.00*
Total ................................................................................................................................ $13,684.00

An additional $54.00 per credit hour with no cap will be charged to ALL ENGINEERING COURSES (including courses that are cross-referenced).

*All fees are subject to changes approved by the Board of Trustees prior to the beginning of the term.
TUITION FOR PART-TIME STUDENTS

Part time students may elect to pay fees computed by the semester hour credit as follows:

<table>
<thead>
<tr>
<th></th>
<th>IN-STATE</th>
<th>OUT-OF-STATE</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$501.00 per semester hour</td>
<td>$1,512.00 per semester hour</td>
</tr>
<tr>
<td>3 hours</td>
<td>$1,503.00</td>
<td>$4,536.00</td>
</tr>
</tbody>
</table>

ENGINEERING FEE

On July 1, 2007, the Computer Science Department merged with the Engineering Department. Beginning Fall 2008, a special per credit hour fee will be assessed on engineering and computer science courses offered through the College of Engineering and the College of Agricultural Sciences and Natural Resources. The additional funds will be used to acquire state-of-the-art equipment, expand first-year programs for Engineering students, and provide faculty with professional development opportunities to bring the latest knowledge into the classroom. The Colleges will retain the funds generated from this fee for their use.

PROGRAMS AND SERVICES FEE

All students enrolled in nine semester hours or more for Fall Semester are assessed an activity fee of $90.00 per semester. Part-time students taking fewer than nine hours will be assessed at the rate of $10.00 per semester hour. The Programs and Services Fee is non-refundable. Research assistants and fellowship/scholarship students who may have a waiver of fees (tuition), must pay appropriate University Programs and Services Fee.

Part-time students enrolled for recorded classes at off campus centers and students residing out of state are not required to pay the Programs and Services Fee.

RETURNED CHECK POLICY

All checks are deposited the day they are received. A $30.00 service charge will be assessed when checks fail to clear the bank on which drawn. In addition, if the returned check is in payment of initial fees and charges, the late payment fee in effect at the time the check is redeemed will be added to the returned check service fee. Returned checks will not be re-deposited. Cash or a cashier's check is required for payment of a returned check, late fee, and service charges. Failure to clear returned checks will result in the forfeiture of all University services including the receipt of grades, transcripts, and schedules of classes.

DEFERRED PAYMENT PLAN

Although fees, rent and other University expenses are due and payable at the beginning of each term, a full-time student in good financial standing with a definite anticipated source of funds may request the deferment of up to 50% of the total charges at registration. The remaining balance for the term is due approximately 45 days after the first due date. All financial aid monies must be applied to fees before a deferment will be considered. A deferred payment service fee of $20.00 is assessed when any portion of tuition, fees, and other charges are deferred with the approval of the Business Office. An additional $35.00 late payment charge will be assessed if the second installment is not paid on or before the due date. For more details, contact the Business Office.
LATE PAYMENT FEES

A Late Payment Fee of $35.00 will be added to each VOLXpress account if the minimum payment amount which is printed on the statement is not received by the Bursar’s Office on or before the published due date. This does not include beginning of term registration statements which will result in cancellation of schedules if the minimum payment is not met. Late payment fees are exclusive of all other charges and are due when assessed whether or not the student receives a VOLXpress statement. Accounts are subject to a late fee of $45.00 if there is an account balance at mid-semester. The fee is assessed in addition to the unpaid fees and charges and the account balance must be paid in order to access registration services, receive a transcript, grades, or a diploma.

TUITION/FEES POLICY FOR DROPPED COURSES OR WITHDRAWAL

THE PERCENTAGE TUITION REFUNDS SPECIFIED ON THE FOLLOWING PAGE ARE APPLICABLE WHEN A STUDENT DROPS ONE OR MORE COURSES (INCLUDING TOTAL WITHDRAWAL). Students who drop courses and continue with a reduced course load are eligible for a refund only if the total charges at the semester hour rate for the courses continued plus the percentage assessed at the semester hour rate for the courses dropped results in an amount less than that paid. The Programs and Service Fee is non-refundable.

******************************************************************************
A COURSE IS NOT OFFICIALLY DROPPED UNTIL A CHANGE OF REGISTRATION FORM HAS BEEN PROCESSED BY THE REGISTRAR'S OFFICE. CANCELED COURSES OR FAILURE TO ATTEND CLASS DOES NOT AUTOMATICALLY WITHDRAW OR DROP A STUDENT FROM THE UNIVERSITY OR CLASS --- A CHANGE OF REGISTRATION FORM MUST BE COMPLETED.
******************************************************************************

The following percentage assessments are applicable for courses dropped (if fees are assessed at the semester hour rate):

***Drop/Withdrawal Dates and Percentages Charged are currently unavailable, but will be listed at the link below once published:

http://web.utk.edu/~bursar/regchang.html#Fall

TUITION/FEES REFUND POLICY FOR WITHDRAWALS

Withdrawal from school for the term after registration has been processed, even though classes have not been attended or fees paid, must be by official notification to the Registrar's office. The effective date of withdrawal is the date the Registrar's office is notified by completion of the Change of Registration request form. FAILURE TO ATTEND CLASS DOES NOT AUTOMATICALLY CANCEL ENROLLMENT. The appropriate percentage of fees will be charged unless the Registrar's Office is notified by the close of the last day designated for registration and before the first official day of classes for the semester or term. WITHDRAWAL DOES NOT CANCEL FEES AND CHARGES ALREADY INCURRED. THE DROP/ADD PROCEDURE CAN NOT BE USED TO WITHDRAW FROM SCHOOL FOR THE SEMESTER OR TERM. When a course is canceled by UTSI administration, the students who have registered for the course will be notified by either the instructor and/or Charlene Hane, Student Services. Any questions concerning registration, please contact Charlene Hane, UTSI, Office D-100, 931-393-7228.
The University of Tennessee Space Institute, in accordance with federal regulations, follows the policy and procedures below for calculating refunds and repayments for financial aid.

**REFUNDS**

Refunds are defined as the portion of maintenance and/or tuition and University housing charges due as rebate when a student withdraws or is expelled from the University. The amount of a refund is determined by the drop date charge fee table.

**REPAYMENTS**

Repayments are defined as that portion of aid, received by a student after the University direct charges have been paid by that aid, which must be repaid by a student when a student withdraws or is expelled. The amount of the repayment is determined by the Drop Date Charge fee table.

Refunds and repayments to the Title IV programs are determined according to the formula published in the current Federal Student Financial Aid Handbook. The Business and Admissions Offices are responsible for determining the amount of the refund and/or repayment and distributing the correct amount back to the financial aid programs according to the Refund/Repayment Allocation Policy.

**TOTAL WITHDRAWAL FROM THE UNIVERSITY**

If, after registering for classes and either returning your fee payment or your Confirmation of Attendance form to the Bursar's Office, you decide not to enroll for this term, you must immediately notify Charlene Hane, Student Services, at UTSI. If you withdraw officially on or before a Change of Registration deadline, but after the no “W” deadline for a particular session, the grade of “W” will be issued.

**GRADES**

Students may obtain their grades through the web at MyUTK or contact Charlene Hane, Student Services, Office D-100, (931) 393-7228.

**GRADUATE STUDENTS CHANGE OF REGISTRATION AFTER THE DEADLINE**

To change registration in any way after the deadline, a graduate student must present a request, signed by the instructor(s) and adviser as evidence of their knowledge of the request to Charlene Hane, Student Services at UTSI. Graduate students must verify that ALL changes have been approved by their academic adviser. If the Office of Graduate Student Services approves the change of registration, the change will be noted on the student’s permanent record. **THE DROP DEADLINE FOR GRADES AND THE DROP DEADLINE FOR FEE REFUNDS ARE NOT THE SAME.**

**FULL-TIME STUDENTS**

Students enrolled in at least 9 semester hours during the Fall/Spring semesters or 6 hours in the Summer Term are considered full-time students. Research Assistants must be full-time students and also enroll in one of the MABE 595 seminars or a PHYS 599 seminar each term, unless a waiver is granted by the Associate Executive Director.
REMOVAL OF INCOMPLETE GRADES

All Incomplete Grades (I) must be removed prior to graduation. The instructor, in consultation with the student, decides the terms for the removal of the I, including the time limit for removal. If the I is not removed within one calendar year, the grade will be changed to an F. The course will not be counted in the cumulative grade point average until a final grade is assigned. No student may graduate with an I on the record. Students planning to graduate Fall Semester 2012 must remove all INCOMPLETE GRADES by December 4, 2012. Contact Charlene Hane, Student Services, to remove an Incomplete Grade.

REPEATING A COURSE

No graduate student may repeat a course for the purpose of raising a grade already received, with the exception of a NC course. A graduate student cannot do additional work nor repeat an examination to raise a final grade.

ADMISSION TO CANDIDACY

MASTER OF SCIENCE DEGREE:

Each M.S. student, including IE Capstone Project students, is responsible for submitting a completed and signed Admission to Candidacy Application at least one semester prior to receiving the degree.

Candidacy committee changes or course changes must be submitted to the committee chairman using a Revision form. If changing from a thesis option to a non-thesis option or vice versa, a new Admission to Candidacy Application must be submitted. All forms must be processed through Student Services.

DOCTORAL DEGREE:

A Doctoral Committee should be formed during the student's first year of doctoral study. Any changes to the doctoral committee (deletions or additions) must be submitted to the Committee Chairman using a Revision form for approval. Each doctoral student is responsible for submitting a completed Admission to Candidacy form signed by the doctoral committee at least one semester prior to receiving the degree. All forms must be processed through Student Services.

CONTINUOUS REGISTRATION OF DOCTORAL STUDENTS

Course 600 is reserved for doctoral research and dissertation hours. Initial registration for 600 should be determined by each department and generally corresponds to the time at which a student begins work actively on dissertation research. From this time on, students are required to register continuously for at least 3 hours of 600 each semester, including summer term. A minimum total of 24 hours of course 600 is required.

A student who will not be using faculty services and/or university facilities for a period of time may request leaves of absence from dissertation research up to a maximum of six terms (including summer terms). The request (form found online at http://gradschool.utk.edu/forms/leaveofabsence_reader.pdf) should be completed by the student and then sent to the major professor (advisor) for endorsement. The completed form is then submitted to Graduate School for review and processing.
FINAL EXAM FOR NON-THESIS, CAPSTONE PROJECT STUDENTS, THESIS AND DISSERTATION STUDENTS

A candidate presenting a thesis or dissertation must pass a final oral examination on all work offered for the degree. The examination is scheduled through Student Services. Failure to notify Student Services of the examination date will put the student at risk for graduating that semester. Final examinations not properly scheduled MUST be repeated. The final draft of the thesis must be distributed to the committee members at least two weeks prior to the date of the final examination. In case of a grade of "Fail", the candidate may not apply for re-examination until the following semester. The result of the second examination is final.

UT POLICY ON INSURANCE FOR INTERNATIONAL STUDENTS

All foreign national students registered with the University of Tennessee, Knoxville, are required to have comprehensive medical insurance. The policy for the 2011-2012 academic year is provided by Aetna. The premium must be paid before registration. Contact the Human Resources Office (A-104 ext. 37267) for further information.

GENERAL SEMINAR

A number of seminars of interest to all UTSI students and general public will be offered throughout the semester.

FINAL EXAM DATES

STUDY PERIOD – December 5, 2012
FINAL EXAMS – December 6, 7, & 10, 2012

HONOR STATEMENT

The following Honor Statement is signed by all students applying to The Graduate School:

"An essential feature of The University of Tennessee, Knoxville is a commitment to maintaining an atmosphere of intellectual integrity and academic honesty. As a student of the University, I pledge that I will neither knowingly give nor receive any inappropriate assistance in academic work, thus affirming my own personal commitment to honor and integrity."

For official information on all UTK Graduate School policies, refer to the current UTK Graduate Catalog available at http://catalog.utk.edu. The student handbook “Hilltopics” is available in Student Services, D-100 or online at http://dos.utk.edu/files/HT2011revised.pdf.

The University of Tennessee Space Institute reserves the right to cancel any class with an insufficient number of students, or for other reasons.
THE UNIVERSITY OF TENNESSEE POLICY ON A DRUG-FREE CAMPUS AND WORKPLACE

In support of the Drug-Free Workplace Act of 1998 (Public Law 100-690) and the Drug-Free Schools and communities Act of 1989, the University of Tennessee is notifying all students, faculty, and staff of the following university policy approved by the UT Board of Trustees on 21 June 1990.

It is the policy of the University of Tennessee to maintain a safe and healthful environment for its students and employees. Therefore, university policy prohibits the unlawful use, manufacture, possession, distribution, or dispensing of drugs ("controlled substances" as defined in the Controlled Substances Act, 21 U.S.C. 812) and alcohol on university property or during university activities.

Violation of this policy is grounds for disciplinary action--up to and including immediate discharge for an employee and permanent dismissal of a student. Federal and state laws provide additional penalties for such unlawful activities, including fines and imprisonment (21 U.S.C. 841 et seq.; T.C.A. 39-6-401 et seq.). Local ordinances also provide various penalties for drug- and alcohol-related offenses. The university is bound to take all appropriate actions against violators, which may include referral for legal prosecution or requiring the individual to participate satisfactorily in an approved drug use or alcohol abuse assistance or rehabilitation program.

This course uses a commercial CFD code that is widely accepted and used in industries and government labs as a hands-on introduction to computational fluid dynamics. After a brief review of the fundamentals, the course will cover various aspects of the simulation process including geometry modeling, grid generation, solution strategy and post processing primarily through practical examples that bring out the importance of proper understanding of the underlying physics for the problem. Examples will also attempt to cover a wide range of problems that cover different types of flow conditions (incompressible/compressible, laminar/turbulent, steady/unsteady flows, free surface flows, flows with heat transfer and possibly reacting flows).

_Repeatability: May be repeated. Maximum 6 hours._
The course starts with a review of basic aerodynamic principles and then focuses on problem solving in applied aerodynamics. Topics include: Standard Atmosphere, Aerostatics, Aircraft Pitot-Static System, Determination of Center of Pressure and Aerodynamic Center, Conservation Principles, Momentum Rake, Propeller Thrust, Potential Flow, Special Airfoils, High Lift Devices, Powered Lift, Lift-Induced Drag, Viscous Drag, Optimization of Wing Planforms, Stall Characteristics, Lift and Drag of Wings in Formation, Air Vehicle Aerodynamics.

004 CRN 47360  UTK students participating elsewhere  
**TEXT:**  
**TIME:** Wednesday 4:00 – 6:35 E-113  
**PROFESSOR:** Dr. Greg Sedrick

Strategic planning process and strategic management in practice; corporate vision and mission; product, market, organizational, and financial strategies; external factors; commercialization of new technologies; and competition and beyond.  
**(RE) Prerequisite(s):** 533 and Industrial Engineering 518 or consent of instructor.

**EM  595**  
**Special Projects in Engineering Management: Project Management (3)**  
**SEC.** 001 CRN 44033  
**TEXT:** TBD  
**TIME:** TBD  
**PROFESSOR:** Dr. James Simonton

Problems and topics relevant to current issues in the field.  
**Repeatability:** May be repeated if topic differs. Maximum 6 hours.
INDUSTRIAL ENGINEERING

IE   516 Statistical Methods in Industrial Engineering (3)
SEC. 003 CRN 47483 UTSI students participating at Tullahoma
004 CRN 47484 UTSI students participating elsewhere
TIME: Wednesdays         1:00 – 3:20     E-110
PROFESSOR: Dr. James Simonton

Application of classical statistical techniques to industrial engineering problems. Statistics and statistical thinking in managerial context of organizational improvement; descriptive statistics and distribution theory; relationship between statistical process control techniques and classical statistical tools; parameter estimation and hypothesis testing; goodness-of-fit testing; linear regression and correlation; analysis of variance; single and multiple factor experimental design.

*Recommended Background: Statistics 251 or equivalent.*

MATERIAL SCIENCE AND ENGINEERING

MSE   474 Biomaterials
SEC. 002 CRN 50627
TEXT: TBD
TIME: Tuesday & Thursday     11:40 – 12:55    E-110
PROFESSOR: Dr. Wei He

*Cross-listed: (Same as Biomedical Engineering 474.)*

TIME:  Monday & Thursday  3:00 – 4:15  F-252
PROFESSOR:  Dr. Jan Zijlstra

Topics from multivariable and vector calculus; line and surface integrals, divergence theorem and the
theorems of Gauss and Stokes.
*(RE) Prerequisite(s): 241 or 247.*

**MATH 471**  Numerical Analysis (Same as CS 471) (3)  (Video Recorded)
SEC.  001  CRN  44293
TIME:  Monday & Thursday  10:00 – 11:15  E-111
PROFESSOR:  Dr. Chad Limbaugh

Introduction to computation, instabilities, and rounding. Interpolation and approximation by polynomials
and piecewise polynomials. Quadrature and numerical solution of initial and boundary value problems of
ordinary differential equations, stiff systems.
*Cross-listed: (Same as Computer Science 471.)*
*(RE) Prerequisite(s): 231; 200 or 251 or 257.*
*(DE) Prerequisite(s): 371.*
*Comment(s): Knowledge of a high-level programming language required.*

*MATH 511**  Methods in Applied Mathematics I (3)  (Video Recorded)  **CANCELLED**
SEC.  001  CRN  50328
TEXT:  Applied Analytic Mathematics for Physical Scientists; Cushing; Wiley; 2nd Edition
      Essential Mathematical Methods for the Physical Sciences; K.F. Riley and M.P. Hobson; Cambridge University Press.
TIME:  Monday & Thursday  10:00 – 11:15  E-113
PROFESSOR:  Dr. Horace Crater

Fundamentals and techniques associated with discrete models of physical, engineering and biological
systems: difference equations, networks and graphs, optimization, and other topics.
*Recommended Background: Courses in advanced calculus and linear algebra.*

MATH 511-512 is a two-semester course targeted for engineering students who have taken MATH 404
and 435 (vector analysis and partial differential equations) and who need additional math courses for their
research or advanced courses. Math Methods (Physics 571,573(2) or MATH 517-518) is currently a two
semester course with the second (573(2)) being a numerical methods course for solutions of physical
problems. The plan in teaching MATH 511-512 would be to follow the logical progression of a general
advanced level physics course (in the old days it was called theoretical physics, at the senior level) with
the mathematical methods that are new to the student (and likely to be of value) introduced in the context
of the progression of the (classical) physics subjects covered.

Topics and applications include: Calculus of variations & Euler Lagrange equations; Tensors
& elastic and viscous media; Complex variable, Fourier series and transforms & the forced and damped
and coupled harmonic oscillators; Special Functions & Classical Field Theories (Plasmas, Electrodynamics and Gravity), Perturbation theory and nonperturbative methods & scattering theory; Complex variables (conformal mapping) & fluid flow and problems in potential theory; Perturbation theory and Classical Chaos…

The physics needed will be introduced as the corresponding math topics are introduced.

MATH 517 Mathematical Methods in Physics I (Same as PHYS 571) (3)
SEC. 002 CRN 44305
TIME: Monday & Thursday 2:30 – 3:45 E-111
PROFESSOR: Dr. Christian Parigger

Linear vector spaces, matrices, tensors, curvilinear coordinates, functions of a complex variable, partial differential equations and boundary value problems, Green’s functions, integral transforms, integral equations, spherical harmonics, Bessel functions, calculus of variations.

Cross-listed: (Same as PHYS 571.)
Recommended Background: Advanced calculus and differential equations.

TIME: Tuesday & Friday 3:00 – 4:15 CLA Conference Room & Labs
PROFESSOR: Dr. Lloyd Davis

Introduction to experimental methods of spectroscopy through hands on operation of FTIR, Raman, NMR, photoelectron, laser and mass spectrometers. Principles and hazards of cw and pulsed lasers, radiation detectors, photomultiplier tubes, image intensifiers, image converters; high-vacuum systems including cryogenic-based devices, data acquisition techniques including lock-in amplifiers, box-car integrators, digital electronics methods and micro-computer data acquisition.
Note: This course will cover the following topics with alternate classroom meetings and hands-on session in the labs: RC circuits, transmission lines, impedance matching, analog and digital oscilloscopes, signal acquisition and processing, feedback and PID controllers, curve fitting and analysis, LabView, NI-DAQ, FPGA and Realtime modules, Photon detectors; photomultipliers, photodiodes, spectrophotometer, spectrometer, autocorrelator, Frequency-Resolved Optical Gating (FROG), CCD, ICCD, and EM-CCDs, Streak and framing cameras; synchronization, optical microscopes, electron microscopes, Autocad and design, machine shop, Lock-in amplifiers, box-car average, Motion control; Temperature control, clean room, microfabrication, regenerative amplifier, femtosecond laser machining. Other topics may be added. The course will include homework assignments, and midterm and final practicals.

**PHYS 511** Theoretical Physics I (3)  (Video Recorded)
SEC. 001 CRN 42382
TEXT: Theoretical Physics; Constant
TIME: Monday & Thursday 1:00 – 2:15 E-113
PROFESSOR: Dr. Horace Crater

Concepts and applications in applied physics. Topics: one-body, two-body and rigid body dynamics, ideal fluid, small oscillations and waves, elements of special relativity, electrostatic and magnetostatic problems, and other modern applications of current interest, in areas of biophysics and astrophysics. *Recommended Background: Familiarity with computational methods.*

**PHYS 513** Problems in Theoretical Physics I (3)  (Video Recorded)
SEC. 002 CRN 50737
TEXT: TBD
TIME: Wednesday 10:15 – 11:30 E-113
PROFESSOR: Dr. Marianne Breinig

Fundamentals of physics: classical mechanics (Newtonian mechanics, Lagrangian and Hamiltonian dynamics) and electrostatics and magnetostatics.

**PHYS 521** Quantum Mechanics (3)
SEC. 002 CRN 48515
TIME: Tuesday & Friday 1:00 – 2:15 F-253
PROFESSOR: Dr. Lloyd Davis

Fundamental principles of quantum mechanics, angular momentum, electron spin, particles in electric and magnetic fields, perturbation theory, variational methods, scattering theory; second quantization, quantization of electromagnetic field, emission, absorption, and scattering of light, bremsstrahlung, pair creation and annihilation. Application of quantum mechanics to problems of atomic, molecular, nuclear, and solid state physics.

**PHYS 531** Classical Mechanics (3)
SEC. 002 CRN 42390
TEXT: Classical Mechanics; Goldstein; 2nd Edition
TIME: Monday & Thursday 10:45 – 12:00 B-210
PROFESSOR: Dr. Horace Crater
Variational formulation, Lagrange’s and Hamilton’s equations, constraints, canonical transformations, Hamilton-Jacobi theory and action-angle variables.

PHYS 571 Mathematical Methods in Physics I (Same as MATH 517) (3)
SEC. 002 CRN 42404
TEXT: Arfken et al. 7th Edition; Arfken reference; http://www.amazon.com/Mathematical-Methods-Physicists-Seventh-Comprehensive/dp/0123846544/ref=sr_1_1?s=books&ie=UTF8&qid=1328812143&sr=1-1
Boas 3rd Edition; Boas reference; http://www.amazon.com/Mathematical-Methods-Physical-Sciences-Mary/dp/0471198269/ref=pd_vtp_b_1
TIME: Monday & Thursday     2:30 – 3:45     E-111
PROFESSOR: Dr. Christian Parigger

Linear vector spaces, matrices, tensors, curvilinear coordinates, functions of a complex variable, partial differential equations and boundary value problems, Green’s functions, integral transforms, integral equations, spherical harmonics, Bessel functions, calculus of variations.

Cross-listed: (Same as Mathematics 517.)

PHYS 593 Independent Study (3)
SEC. 004 CRN 50819
TEXT: TBD
TIME: TBD
PROFESSOR: Dr. Horace Crater

Independent study course in aspects of quantum field theory and perturbation theory. Repeatability: May be repeated. Maximum 15 hours.

PHYS 599 Seminars (1)
SEC. 005 CRN 42419
TEXT: None
TIME: 2nd & 4th Thursday     3:30 – 5:00     H-111
PROFESSOR: Dr. Horace Crater

(a) Mechanics; (b) Radiation; (c) Heat and Thermodynamics; (d) Electricity and Magnetism; (e) Modern Physics.
Repeatability: May be repeated with consent of department. Maximum 18 hours.

Physics seminars given by or chosen by students. (Note this course number will be 503 for students who have less than 6 credits in PHYS 503 - and 599 for those with more than 6 credits in PHYS 503.)

PHYS 600 Doctoral Research/Dissertation (3-15)
SEC. 002 CRN 42424 Crater
003 CRN 42425 Davis
004 CRN 42426 Lewis
005 CRN 42427 Parigger
Advanced problems.

*Comment(s): For students specializing in the field.*

*Registration Restriction(s): Minimum student level – graduate.*
