To install Mobile Connect on MacOS perform the following.

Navigate to the SonicWall VPN Clients page.

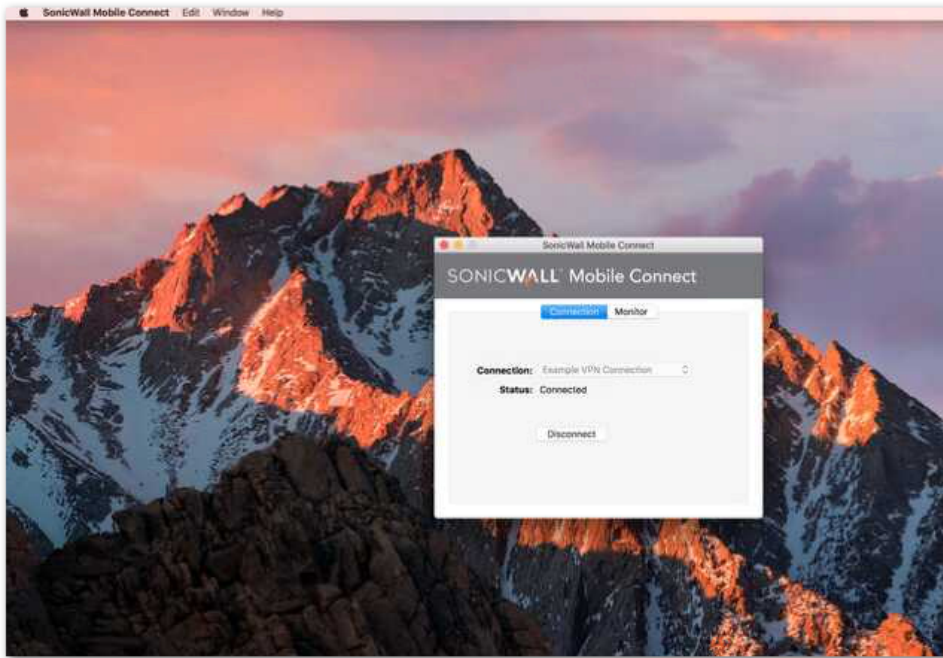

Select Mobile Connect and click APP STORE button under Get Mobile Connect for macOS.

The screenshot shows the SonicWall website's VPN Clients page. The 'Mobile Connect' tab is selected. The page features a navigation bar with 'NetExtender', 'Mobile Connect', 'Connect Tunnel', and 'Global VPN Client (GVC)'. A 'CONTACT SALES' button is in the top right. The main content area is titled 'Mobile Connect' and includes a paragraph about mobile security threats, a list of compatible devices (TZ, NSa, and NSp Series Firewalls), and two call-to-action boxes: 'Get Mobile Connect for iOS' and 'Get Mobile Connect for macOS'. Each box contains an 'APP STORE' button with a download icon and a 'COPY LINK' button with a share icon.

. Click Get and then click Install App.

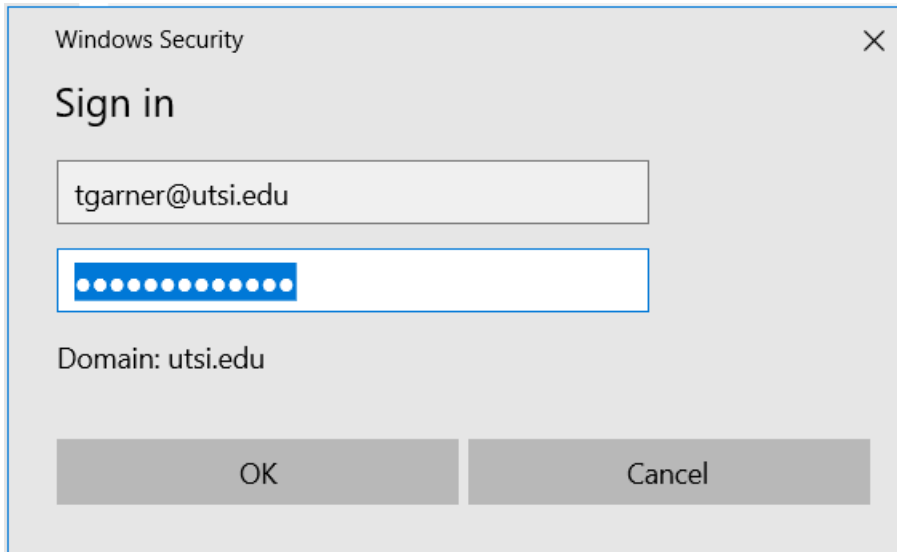

Once the app has been installed it can be opened and connected to a SonicWall SMA or firewall appliance for remote access.

VPN Connection Address

<https://access.utsi.edu:4433/>

This will add a VPN connection named UTSI, click that then click Connect and you'll be prompted for credentials.

Enter your UTSI email and password and click OK.

You're now signed into the VPN and are able to access on-campus resources.
